

*The Provisional Chapter of Pi Kappa Alpha
at the University of North Carolina at
Charlotte: Petition to Install, 2024*

UNIVERSITY OF NORTH CAROLINA
CHARLOTTE

Letter from the President

To the Pi Kappa Alpha International Fraternity,

To start, there are several people I would like to thank on behalf of the Fraternity who have uplifted the Chapter and led it down a road of growth and success. First, thank you to all the Provisional Chapter Consultants we had the pleasure to work with. Grayson McCrosky, Gabe Gallo, and Scott Brewer provided me and our membership with guidance and advice that has assisted us in becoming the leaders we are. Thank you to all International Fraternity Staff who have provided us with advice, guidance, input, and suggestions that have allowed us to alter our trajectory to address issues that we faced and grow through them. I would also like to thank our Chapter Advisor and Chairman of the Alumni Advisory Board Joshua Rice, and former Chapter Advisor and Chairman of the Board Michael Knapp. Both provided us with advice, and held us accountable to the goals we set, ensuring we reached the potential they and we knew we could. Next, I would like to thank the UNC Charlotte Office of Fraternity and Sorority Life. Especially pivotal to the Chapters success have been Director of the Office of Fraternity and Sorority Life Michelle Guobadia, Associate Director of the Office of Fraternity and Sorority Life Bryan Cotton, and former Assistant Director of the Office of Fraternity and Sorority Life Kirby Fitzpatrick. Whenever the fraternity seemed at a standstill or in a rut, they were always there to support and offer insight into what other Chapters at Charlotte had done with similar issues in order to provide guidance on what we could do in any way they could. Additionally, I would like to thank our alumni associations, the Kappa Kappa Alumni Association and the Greater Charlotte Alumni Association. Their trust and support has lifted us further than we could have gone ourselves, showing us the bonds of brotherhood we mean to achieve. I would also like to thank our former Chapter President, Isaiah Grayson. The fraternity, and myself, would not be here without the leadership he provided. He is consistently by my side both as a mentor and as a brother. Finally, I would like to thank the men of Pi Kappa Alpha. Without them, there would be no Chapter, as it is the bonds we make that bring us into brotherhood. There have been many highs and lows, but without all the brothers we would not be at the point we are. Without that, the Chapter would not exist today.

When thinking about the Chapter, I've always thought about how we need to be close-knit, and constantly make strides to become brothers above all else. This is what I thought about from the time I joined the Chapter through 365 recruitment in February of 2023, and it became much more prevalent when I became President of the Provisional Chapter at UNC Charlotte in October of 2023. My journey to President was not a "traditional" one like most Chapter Presidents here at UNC Charlotte. I wanted to become the President because there were

many things I saw that needed to be changed within the Chapter. While the Chapter was running well operationally, our brotherhood was lacking. Our brotherhood and charter were my two main focuses when going into my presidency. I then quickly learned that being the President was more than just being in charge of a “bunch of frat guys”. I became the face and name of the Chapter to anyone and everyone. While there was a learning curve I had much help from my predecessor, Isaiah Grayson, and former Internal Vice President, Dylan Ilg, on how to lead the Chapter.

This Chapter has quickly turned into my life and I wouldn't have it any other way. While there may be stressors with the job, the reward is much greater than anyone outside the position can even imagine. I get to watch my brothers grow and lead, I get to change the lives of these men by simply leading and setting an example. I never in my wildest dreams would have thought that I would be a leader in any capacity other than a basketball coach or a construction site manager. Now, thanks to Pi Kappa Alpha, I am learning more and more every day about how to lead, how to manage, and how to be a role model.

I inherited a mess. A mess that at the time I didn't know how to handle. But now, with ever-growing experience, I am learning to fix and love the mess that is my Chapter. The road has been far from easy to travel down, but we have done our absolute best to make the trip worthwhile and build something great that men for decades can come to enjoy and use to better themselves and the people around them. I have taken great pride in being the President of Pi Kappa Alpha, and will continue to do so until the end of my term and beyond.

Sincerely,

President, Pi Kappa Alpha at UNC Charlotte, Cameron P. Harper

The History of the University of North Carolina at Charlotte

The University of North Carolina at Charlotte (UNC Charlotte) has a rich history that traces its roots back to the mid-20th century. Established in 1946, the university initially began as the Charlotte Center, an extension of the University of North Carolina at Chapel Hill, with the goal of providing education opportunities for veterans returning from World War II. The institution experienced rapid growth, and in 1949, it became Charlotte College, a separate branch of the UNC system.

Throughout the 1950s and 1960s, Charlotte College continued to expand its academic programs and facilities to meet the growing demand for higher education in the region. In 1965, the institution achieved university status and was renamed the University of North Carolina at Charlotte. This transformation marked a significant milestone in the university's history, emphasizing its commitment to offering a comprehensive and diverse range of academic disciplines.

UNC Charlotte played a pivotal role in the development of the Charlotte metropolitan area, contributing to the region's economic and cultural growth. The university's focus on research and innovation intensified over the years, leading to the establishment of various research centers and institutes that have made significant contributions to fields such as engineering, business, and health sciences.

As UNC Charlotte looks towards the future, its history serves as a foundation for continued growth, innovation, and a commitment to providing students with a transformative educational experience. The university remains a dynamic hub for learning, research, and community engagement, contributing to the intellectual and cultural fabric of the region.

History of the Kappa Kappa Chapter of Pi Kappa Alpha from 1994-2013

Kappa Kappa started in the fall of 1994 when two expansion consultants, Max Holland and Lance Dowdy came to the University of North Carolina at Charlotte campus. On October 21, 1994 the 39 Founding Fathers were inducted into the fraternity with the help of the chapter at Winthrop. Just two days later the first Executive Board was appointed.

The Executive Board was as follows: Steve Odom, President; Ashley Watts, Internal Vice President; Angelo Chrysoulakis, External Vice President; Pat Travers, Treasurer; Hans Schreiber, Secretary; Kelly Sheen, Rush Chairman; Lynn Gandy, Pledge Education; T.J. Tison, Sergeant at Arms.

The first full semester for the Provisional Chapter was spring of 1995. This semester was quite exciting for the chapter as President Ashley Watts attended the Presidents Convention and the chapter hosted the Carolina Regional Convention in February. The Provisional Chapter Also elected their first Dream Girl, Holly Eller, because of her hard work and dedication to the fraternity.

One of the first alumni events the chapter hosted was hosted at the Comedy Zone on March 8 as a delayed Founder's Day event. Another alumni event was held a little over a month later, the first annual Pi Kappa Alpha Golf Tournament. The proceeds from this tournament went to the Alzheimer's Foundation. Their final community service event of the year was at Thompson's Children Home on April 20th, where the brothers of PIKE and sisters of Chi Omega played with the children.

Overall the Kappa Kappa chapter of Pi Kappa Alpha at UNC Charlotte was among one of the best fraternities at UNC Charlotte. Unfortunately, the Kappa Kappa chapter lost its charter at the International Convention in 2014 and would not return until November of 2022.

History of the Provisional Chapter of Pi Kappa Alpha at the University of North Carolina at Charlotte

Refounded on November 1, 2022 the Provisional Chapter started off with around 60 men recruited by expansion consultants Harris Sierra and De Shannon. Harris and De started recruiting men in September of 2022. Their recruitment efforts continued until late October when our first Executive Board was formed.

The first provisional chapter event was pickup basketball at the campus recreation center gym with the new brothers. This would go on to become a recurring event for the chapter, emphasizing their commitment to athletics. Working with the newly formed brotherhood as well as the fresh executive board, the chapter would host Meet the PIKEs Night on November 1st, 2022. From this night forward, the chapter would run solely independent from their expansion consultants. Less than two months later, 3 members of the chapter would attend their first PIKE *U* event, The Chapter Executive Conference in Memphis, TN from January 3rd to the 5th. This event would prove invaluable to the chapter as it filled the 3 members who went with ideas and ambition.

The chapter would enter its first ever rush in the spring. While the chapter was enthusiastic about having a large rush class this first ever rush class only saw two new members. A year later the Spring '24 rush class would see five new members which was decent given the numbers of other IFC fraternity rush classes. However, the best rush class was the Fall '23. This class saw 10 new members and while only six ended up staying in the chapter all six are valuable up and coming leaders in the chapter.

The first true philanthropy week for the chapter was also a great success. Raising \$6,000 for the Isabella Santos Foundation with the help of the Kappa Kappa alumni association. The \$6,000 raised in the fall was 6x more than the chapter had raised the previous spring semester. Individual chapter members also did a great deal of community service, helping their club sports, school Student Government official campaign as well participating in many PHA sorority events like Alpha Chi Omegas "Walk a mile in her shoes" where they raised money for domestic violence awareness.

As a whole the first year and a half of the chapter's time at UNC-Charlotte has seen many ups and downs. From placing a president to building one of the strongest brotherhoods in all of IFC the provisional chapter has been a clear upward trajectory.

The Provisional Chapters Mission Statement

The mission of the Provisional Chapter of Pi Kappa Alpha is to develop our members into outstanding men, and to send them from their halls and classrooms into the world with the Courage to be More, and the Courage to Win.

Reaffirmation of Provisional Chapter's Commitment to Pi Kappa Alpha

Answer the following questions for the Provisional Chapter

- ☐ Are you, or have you ever been, members of any other existing general, national or international, secret or non-secret, social college fraternity?
 - No
- ☐ Do you earnestly desire to form a chapter of the Pi Kappa Alpha Fraternity, prompted by no improper motives, but seeking only the good of the Fraternity and its interests, with the full purpose of making your chapter strong and permanently successful?
 - We do
- ☐ Do you pledge to actively participate in the Fraternity events and programs, meet your chapter's financial obligations, and adhere to the rules contained in the Constitution and Chapter Codes, and act in a way that is consistent with the Fraternity's mission, vision and creed?
 - We do
- ☐ Do you pledge to have answered these questions truthfully, and to never divulge anything that may come to your knowledge connected with this The Pi Kappa Alpha International Fraternity whether or not you become members?
 - We do

Savings Account Balance	\$0.00 The Provisional Chapter stores all funds in one account, the checking account. The total amount of money the Provisional Chapter currently has is \$9,298.81. The balance will increase to \$12,074 following 100% collections of money owed to the Chapter at the conclusion of the semester.	\$12,000
Funds saved for installation	\$ 9,000	\$12,000

The *True* PIKE Experience

Section 2 - To Myself...

Section 2 should explain the ideas of member development. Please write a 2-3 paragraph description per question (a. & b.) The areas to highlight in this section are:

1. Academic Achievement

a. How does the Provisional Chapter promote a culture of academic success?

The Pi Kappa Alpha Provisional Chapter at the University of North Carolina at Charlotte promotes a culture of academic success by actively encouraging brothers to prioritize their studies and providing them with the resources they need to excel. We have developed a comprehensive scholarship plan that includes structured study programs, academic workshops, and access to tutoring services. Study rooms in the library are regularly reserved, and we recognize top academic performers during chapter meetings to foster a spirit of healthy competition.

We also encourage collaboration through academic study teams, organized by major, to support each other in coursework and exam preparation. For new members, a tailored new member success plan is in place to guide them during their transition to university life, ensuring they have access to all the academic resources and guidance they need. Furthermore, our academic resource page consolidates key tools like university tutoring schedules, study materials, and contact information for advisors, making academic support easily accessible for all members.

Additionally, we put a focus on individuals. A large portion of our scholarship program is tailored to individuals, how they are performing in the classroom, and how we can help them succeed. Different things we have done to ensure this happens are: individual conversations with brothers discussing their grades, how they feel about them, and where they think they can improve, recommendations from the Scholarship Chairman and Internal Vice President on different strategies the brother can implement, and requirements for individual brothers to complete based on their level of scholarship, reviewed regularly to ensure the best possible outcomes for each individual brother.

Our overarching goal is to create an environment where academic achievement is celebrated and brothers are consistently striving to improve, both individually and as a group.

b. How does the Provisional Chapter hold members accountable to academic standards?

The Provisional Chapter holds members accountable to academic standards through clear expectations and structured consequences. Members are required to maintain a minimum GPA, as outlined in the bylaws. Those who fall below this standard are placed in the lowest academic tier, where they lose points in the chapter's point system. Losing too many points can lead to a membership review by the Judicial Board, which may result in probation or suspension.

The bylaws also specify a system of academic sanctions. Members who do not meet the GPA requirement must complete mandatory study hours, attend bi-monthly meetings with the Scholarship Chairman, and may be placed on social probation. Officers and chairmen who fail to meet the academic standards are relieved of their duties to ensure leadership roles are held by academically eligible members. Repeated failure to meet academic standards leads to stricter penalties, such as full social probation and suspension. These measures are enforced by the Judicial Board in line with the bylaws.

2. *True PIKE Experience* Member Development

- a. How has the Provisional Chapter successfully implemented continuous member development through the *True PIKE Experience*?

The Provisional Chapter utilizes the *True PIKE Experience* in development by first teaching the chapters new members about the four points of TPE and how they relate back to the fraternities mission, vision, and creed. From there, during Chapter and development meetings, the various points are taught and discussed by members in order to reflect the values of the fraternity and what it means to be a true PIKE.

The Chapter has taken the materials and positions created by the International Fraternity, and shifted them to best serve its membership. The positions that traditionally exist follow the *True PIKE Experience* itself, New Member Educator, Brother Leader Educator, Fraternity Leader Educator, and Community Leader Educator. The men found that

its membership being split between these educators, and the multiple people serving in the positions, did not best serve the Chapter. Statistically, the chapter was very unproportionate with the members of each class. Before this new member class, over half of the fraternity was solely juniors. Therefore, splitting up the educators for only a few brothers in our senior and freshman class was quite ineffective and was not a

good use of resources. For those reasons, the Chapter combined Brother, Fraternity, and Community Leader Educator into the Brother Leader Educator Position, shifting the cabinet to the Membership Development Vice President, New Member Educator, and Brother Leader Educator. The educators oversee the content and the Vice President oversees the educators. The Chapter found this to be far more effective in continuing the True PIKE Experience phases of member development.

As described, the Brother Leader Educator oversees membership content for most of the Chapter, including those that would fall under the Brother, Fraternity, and Community Leader cabinet. Beyond new member education, it is their responsibility to host events and programs that further the whole Chapter education. Some events that the Chapter has hosted to further the experience and implement continuous member development include workshops following the True Pike Experience, alumni speakers, study sessions, and various other programs. Some of these workshops have had focuses on financial development, investing money, managing financial properties, and how to start a business.

- b. What supplemental material or other member development content has the Provisional Chapter included in their program to best serve the interests of its members?

On top of the material provided to the Chapter by the International Fraternity, we also utilize materials created by the Chapter and the Charlotte Office of Fraternity and Sorority Life (hereafter OFSL or the office). The Chapter creates presentations and workshops to further the developmental content to best serve its members. Some of this content comes from the membership development cabinet, other content comes from bringing in alumni speakers to discuss different topics, including but not limited to: their experiences in Pi Kappa Alpha and what they took away from their undergraduate experience, what jobs or roles they currently hold and how their experience in those positions has shaped their success, and simple conversations between men about how to handle life after college.

Additionally, the Chapter attends programs hosted by OFSL. Some of these programs include but are not limited to: Academic Roundtables, Hazing Prevention Week Lectures, Health and Safety Programming, and other programs. To describe some of the highlighted events, the office hosts Academic Roundtables meant to help improve Chapters across campus' GPAs. Leadership in the office believes that through discussions with peers and effective time management, organizations overall GPAs can improve. The Chapter agrees with this sentiment, and therefore recommends and includes time focused on informing members about the roundtables. Secondly, the Chapter attends regularly, during Hazing Prevention Week, programming discussing how hazing negatively impacts Chapters and individuals. In 2024, the Chapter sent around eight men to learn about this extremely important topic and bring the information back to Chapter meetings. The office put a focus on bringing in UNC Charlotte alums who were in Greek Life and admitted to being involved or seeing hazing in some form. Different stories were discussed and the impact and importance was felt. Finally, the membership sends men to learn about

Health and Safety and its importance every year at a workshop the office hosts for all Chapters across campus. It is an all day event in which different topics are discussed, including how to be proactive in Health and Safety rather than reactive, the risk Chapters incur when having social functions, history of Health and Safety culture at Charlotte, and other topics.

Finally, the Chapter hosts its own programs in congruence with the Office's Gold Standard requirements; the Gold Standard is a list of programs/events that every Chapter at UNC Charlotte agrees to complete per year in order to remain a Chapter at UNC Charlotte. Incompletion two years in a row means removal from campus as the Chapter has not completed its part of the agreement to be on UNC Charlotte's campus. These requirements include: At least two service/philanthropy events per year, at least two all greek (meaning most chapters across campus participate) service/philanthropy events per year, at least one alumni event/program per year, at least two prevention programs per year, at least one health and wellbeing program per year, at least one educational

program per year, at least one collaborative program with an organization not in our council, and at least one program with a non-greek organization. Some highlight events the Chapter has participated and created to further member development content include but are not limited to: focusing on service through adopting a stream next to UNC Charlotte's campus off a main road and cleaning it up regularly ensuring a focus on service, proactive Health and Safety discussions regarding how to hold members accountable and how to be responsible at events, and regularly scheduling times for alumni members to speak to the Chapter about various topics, notably former Kappa Kappa President Paul Calarco speaking in multiple semesters about personal finance and person accountability/responsibility.

3. Athletics

a. How has the Provisional Chapter fostered success in intramurals?

The Provisional Chapter has fostered success in intramurals through focusing on recruitment. Success stems from finding the men who exemplify the qualities the Chapter seeks. The goal is to build on existing teams through recruiting men who fill holes in the teams the Chapter fields. This, in turn, will ensure a strong establishment of the team leading up to each season. Football, soccer, and basketball are the largest sports on UNC Charlotte's campus in intramurals. The Chapter has found great success in all three. Not only have the members had growing success in these three sports, but the membership has grown closer through the participation over time.

The Chapter has had growing success, and has come close to winning its first intramural championship. In football, the team went from not making the playoffs to winning a playoff game after one season. In soccer, the team had success in the regular season and went on to win its first playoff game. The Chapter hopes to replicate that success in 2024 and potentially multiply it to create its first intramural victory. In basketball, the Chapter participates in both 5v5 and 3v3, one each semester. In 5v5 play, the Chapter improved upon its skills from 3v3, leading it to a runner-up finish in the Championship.

In order to get to the level of success that the Chapter has seen, it took recruiting the right men who wanted to see success, implementing a training and practice program, and having the overall desire, drive, and courage to win. The teams have gone from rarely practicing to practicing individually and at least once per week as a team. Adjusting rosters with new members and having tryouts for teams have helped the Chapter select the membership that allows it to compete on a higher level and see further success. The last key to success has been the communication, allowing the Chapter to understand the issues it faced, whether they dealt with specific positions, rosters, or simply not enough practice time. Knowing how to adjust, the Athletics Chairman established the program needed to see more success.

b. How does the Provisional Chapter efficiently organize athletic teams?

The Provisional Chapter has developed a comprehensive and efficient system for organizing athletic teams, ensuring a smooth, inclusive, and performance-focused season. This process, led by the Athletics Chairman, begins with advanced planning, as he announces available sports, anticipated schedules, and key dates at Chapter meetings a semester in advance. By doing so, members have ample time to consider their involvement, plan around their schedules, and prepare for tryouts. The chairman then gauges interest by conducting a survey to assess who wants to compete in each sport and to gather a preliminary list of potential athletes. This step is crucial for anticipating team sizes, allocating resources, and understanding the level of enthusiasm for each sport.

Once teams are organized, the chairman creates group chats for each sport, which become essential communication hubs for practice times, game schedules, and any logistical changes, keeping all athletes consistently informed. Pre-season tryouts are held well in advance of the season, allowing athletes to showcase their skills, test different positions, and get a feel for their teammates' dynamics. This open-minded approach gives

each athlete the opportunity to explore positions that interest them, fostering a supportive and inclusive environment. Following tryouts, the Athletics Chairman and team leaders assess each athlete's performance and finalize the team structure based on demonstrated skill and team fit. Position assignments are made with a focus on creating a balanced, competitive team, ensuring that each role is filled by the most capable players.

Leadership within the teams is strengthened by appointing or voting in team captains, who are either chosen by the Athletics Chairman or by the team members themselves. These captains play a crucial role in organizing regular practices, motivating their teammates, and fostering active participation, serving as both leaders and liaisons between the athletes and the Athletics Chairman. This organized approach ensures the Provisional Chapter is prepared for a successful and rewarding season, with an environment that values inclusivity, performance, and clear communication, creating a cohesive and enjoyable athletic experience for all involved.

4. Financial Responsibility

- a. What does the budget say about the Provisional Chapter's priorities (i.e. If 40% of the budget is for social / brotherhood expenses, but only 5% is for scholarship, the Provisional Chapter values socials over academics)?

The Provisional Chapter's Scholarship Chairman works to utilize the many free academic resources provided by the University that are included in tuition and has resulted in the recent semesters grade point average to increase. The Scholarship Chairman acts as a point of reference to any and all academic resources the school offers its students. The chairman, through the issuing of google forms, works to gather a constant understanding of the grades of each individual brother multiple times throughout each semester. Through this form, academically challenged brothers are identified and met with in order to connect them with proper academic resources that the school provides. In addition to this, the Chapter pays for an annual subscription to Greek Study, a platform designed to support Greek life organizations, by providing tools for Chapter management, communication, and educational resources. Since this system has been set into motion, the average of brotherhood grades have only increased.

Since the Provisional Chapter operates as a social fraternity, the fraternity incorporates its funds in order to accommodate different forms of social interactions both on and off campus. As the allocation of funds is greatest in this aspect with the social section, we conduct many activities throughout the semester which have acclimated us with both sororities and potential new members across campus, greatly improving our social standing and ability to recruit. As brotherhood is the second largest section, the Chapter has scheduled a brotherhood retreat for the tail end of the semester. Despite this, the Chapter recognizes a need to reallocate a portion of this section to another or rollover the funds to the following semester. As recruitment is the third largest section of the budget, the Chapter feels it is of utmost importance to prioritize the growth of the membership. Recruitment is predominantly conducted over a single week, however we believe this single week is by far the most important to our organization each semester. Conclusively, although the fraternity typically funds more social and brotherhood activities, it recognizes the necessity for academic and recruitment success, deeming these as the keys to our Chapter's ability to thrive.

- b. How does the Provisional Chapter create transparency with alumni and members about financial transactions?

The Chapter Treasurer provides the Provisional Chapter with a weekly update on the Chapter's budget. Specifically, the Treasurer shows the Chapter the expenses section of the budget, while explaining relevant purchases made throughout each week. He then proceeds to show the Chapter how all the individual purchases reflect upon each cabinet's respective portion of the budget. With this occurring weekly at every Chapter meeting, every brother is given an opportunity to understand where their dues are being utilized and provide feedback accordingly. These presentations allow the Chapter to understand where their dues are going while also allowing them to ask any relevant questions pertaining to their money.

The Chapter Treasurer works with the Alumni Financial Advisor Joe Godwin consistently throughout the semester. Joe provides the Chapter Treasurer with guidance and support, helping him to navigate any financial challenges he encounters. The Chapter Treasurer stays in contact with the Alumni Financial Advisor, meeting both in person and over Zoom to review the budget and discuss any external payments the Chapter is required to make, whether it be administrative or with the IRS. The Treasurer also communicates with the Kappa Kappa Alumni Association President Paul Calarco to keep the alumni association informed.

Section 3 - To My Brothers...

Section 3 should explain how the fraternity is benefitting members within the organization and working to improve the Provisional Chapter. Please write a 2-3 paragraph description per question (a. & b.)

The areas to highlight in this section are:

1. Member Engagement
 - a. What are the components of the Provisional Chapter's mentor program and how have they been able to integrate it into its members' experience?

The Mentor Program within the Provisional Chapter is an integral function of new member education, designed to support and guide new members in transitioning into fraternity life and college.

First, mentors within the Chapter volunteer to guide incoming members through the various facets of leading a college life, including academics and social integration. New Member events, run by the MDVP and the New Member Educator, allow new members to meet their potential mentors. The new members, through study sessions, group meals, social activities, and informal one-on-one conversations, determine what mentors best fit their interests and personalities. From there, all new members are asked to submit their top three choices, and the MDVP carefully pairs each mentee with one of those from the list.

The development in this program is not restricted to mere college mentoring but focuses rather on all-round development grounded in the fraternity values of brotherhood, leadership, and integrity. Since mentees and mentors meet on a weekly basis, mentors are able

to help guide mentees through various aspects of college: Academically, the mentor guides the new member in studying effectively, class scheduling, and accessing resources like study groups and academic counseling. Beyond academics, mentors urge personal growth: to go regularly to the gym, manage stress in a healthy manner, and practice self-care, thereby helping their mentees adapt to challenges at college with resiliency and balance. The mentors also introduce their mentees to the fraternity's values by discussing and quizzing them about the history, principles, and traditions of Pi Kappa Alpha. This process gives the new members a greater understanding of the fraternity while living the values in daily life. While being transitioned, the mentees shadow leadership positions they find interest in. They can come to committee meetings, events planned by positions, or participate in any way seems necessary. In addition, new members are encouraged to participate in brotherhood events and philanthropic activities to be engaging members within and outside the fraternity.

The mentorship program aids the mentees in getting an overview of career preparation, wherein

mentors help them get a grasp of resume building, interviewing, and finding networking opportunities through and outside the fraternity. In this respect, the aspect showcases how the mentees achieve an early advantage in professional development that will prepare them for both internships and later in life. In turn, the mentees find an avid confidant in the mentor, who helps them deal with the complexities of college life. The outcome of such programs will bring a sense of belonging and growth at a personal level, thus adding value and giving meaning to their college experience, making it not only worthwhile but an all-encompassing surety of success during and after their tenureship in the college fraternity.

b. How is the Provisional Chapter fostering camaraderie among its members?

The Provisional Chapter is very committed to the development of brotherhood among members, hence a very strong feeling of brotherhood, lying at the heart of fraternity. The precedent for these focuses on three building blocks: brotherhood events, the

mentor program, and retreats. Brotherhood events are a staple in Chapter life, ranging from a weekly to every-other-week basis in size-all the way from casual "kickbacks" to full-group activities. From

post-game gatherings to watching football down to more exciting events, such as going on a trip to see the Charlotte Hornets play basketball, these events let brothers take time to come together and share experiences in relationships that will last a lifetime. Such moments avail members with the opportunity to interact with one another outside of academic and formal settings, developing deeper bonds through shared enjoyment that further define their memories and time in the Chapter.

The mentor program is the second most important facet in redesign to help further bond the new member class and integrate them into brotherhood. Through hosting a series of Chapter wide events oriented around introductions and integrating new members, the Chapter allows incoming members to bond amongst the active brothers. It fosters camaraderie on two planes: it brings new members together into similar challenges and experiences, then mentors are encouraged to share in the new experiences as well, so they may be joined to both the challenges and the joys of mentorship. This structure helps the mentor program in smoothing the transition of the new members and also solidifies camaraderie among both mentees and mentors, thus strengthening brotherhood as a whole.

Sports are particularly very effective in building up camaraderie among the brothers. From cheering on the Chapter's intramural teams to pick up games

and tournament competition, sports bring brothers together in pursuit of a common cause and create shared pride. Intramural sports such as basketball, soccer, and flag football have become honored Chapter traditions; some of the best moments in the Chapter have been experienced on the field or court. Brothers who play together experience a bonding situation that comes from shared effort and teamwork, and brothers that come to support develop feelings of solidarity and pride in the fraternity. The daily game of beer dye also inspires camaraderie amongst brothers, with encouragement in friendly competition and teamwork alike.

Social events, such as tailgates and Chapter gatherings surrounding home football games, are another way brotherhood is

reinforced, pulling members together in an atmosphere of fun and relaxation. Any home football game became a cause for celebration of the Chapter, bonding with their brothers and standing up for one another when help was needed. Every event added to the store of cherished memories. Besides, the open house policy of the Chapter meant that brothers could drop in at any time to study, relax, or just hang out, and the strengthening of these bonds became an almost organic, ongoing process. This open-door approach lets brothers naturally experience life together, creates ongoing reinforcement of friend relationships through casual interaction, and comfort in knowing they're surrounded by friends who support them.

In summary, the commitment towards brotherhood building in the Chapter revolves around shared experiences, supportive brotherhood, and beliefs and values unifying members for a common cause. Through events that draw members together, traditions that define the brotherhood, and a culture of being welcoming and supportive, the Chapter continues to build and maintain bonds which will last well into the future.

2. Alumni Engagement

a. How is the Provisional Chapter engaging the Chapter's historic alumni?

The Provisional Chapter actively engages its historic alumni through multiple avenues, fostering connections, seeking guidance, and celebrating shared traditions. Regular communication with the Kappa Kappa Alumni Association, led by President Paul Carlarco, ensures that alumni are well-informed and involved. Paul primarily communicates with the alumni relations chair and Chapter president to coordinate alumni events, receive updates, and support fundraising efforts through donations. Monthly Chapter meetings feature alumni speakers who share valuable insights and provide mentorship, enhancing the Chapter's knowledge of PIKE traditions and offering advice for future success.

The Provisional Chapter hosts an annual Founders Day event each February, commemorating the establishment of the Kappa Kappa Chapter on February 24, 1996. This celebration brings together alumni and current members to honor the Chapter's history and foster camaraderie. Additionally, the Chapter supplies the Alumni Association with quarterly updates that are featured in a newsletter circulated among alumni. The Chapter also participates in monthly Kappa Kappa happy hours, often held at an alumni-owned bar, providing a relaxed environment for alumni interaction. This venue has hosted various Chapter events such as Founders Day, strengthening alumni relations.

Looking ahead, the Provisional Chapter plans to introduce a semesterly alumni cookout, where members and alumni can connect, and the executive council will share updates and discuss future plans. Another initiative is an annual summer golf tournament, intended to build community spirit and raise funds for the Chapter and its philanthropic endeavors.

b. How does the executive board interact with the advisory board?

The executive board values the advisory board's input to guide the Chapter strategically. Each executive board position works closely with its respective advisor, seeking their expertise for decision-making within exec and cabinet meetings. Despite scheduling challenges, effective communication with the advisory board has remained a priority, with individual meetings taking place weekly or biweekly based on advisor availability. The Chapter's advisor, Josh Rice, is highly engaged, participating in executive and Chapter meetings, advising the Petition to Install committee, and staying accessible through regular messaging. The executive board maintains proactive outreach, frequently coordinating meetings and seeking advisors' insights to ensure alignment with the Chapter's goals.

Additionally, meetings and conversations are held between members of the Chapter and the Advisory Board as frequently as possible in each respective position. Members of the executive board stay in regular contact via text message and phone calls with members of the advisory board, and vice versa. The relationship between both boards is a positive one of mutual respect, in which the executive board is able to take away lessons and advice to implement in the Chapter.

3. Proactive and Inclusive recruitment

a. How is the Provisional Chapter going outside campus norms and traditional recruitment avenues to recruit new members (i.e. 365 recruitment)?

The Provisional Chapter goes outside campus norms and traditional avenues to recruit new members through implementing a consistent 365-day recruitment strategy. The Chapter, rather than solely

focusing on Rush Week, though a major part of the recruitment of membership, actively reaches out to potential new members (PNM's) year round. Through utilizing Instagram, the recruitment team actively communicates in an informal, personable manner, so as to build interest before official rush events begin, and potentially extend a bid to a PNM at any point in the semester. Additionally, the recruitment team attends tabling opportunities at new student orientation and convocation events, providing visibility among new students and their families, early and often. This ensures the Chapter is in a prime position to recruit the most, best men, as they are in

every position possible to create opportunities to meet PNM's, maintaining engagement with a broader audience.

In addition to these events, the Chapter has introduced several other new strategies such as distributing business cards and pins to students touring campus. The business cards and pins increase visibility, giving them a tangible reminder of the fraternity. The Chapter also utilizes rush videos, flyers, events throughout the year focused on recruitment such as bonfires, casual lunches, and more. All of these events are meant to create natural and casual connections with PNM's before the recruitment team closes them once the semester starts and throughout the semester. The idea is to be genuine to who the members are, creating an approachable and consistent presence on campus, encouraging men to join at any point in the semester, something most Chapters at UNC Charlotte don't utilize or look to create.

- b. How has the Provisional Chapter diversified its recruitment to include students of varying majors, backgrounds, races, sexual orientations, hometowns, etc.?

The Provisional Chapter has also taken proactive steps to ensure that recruitment efforts reflect the diversity of the student body. Collaborating with a variety of student organizations, cultural clubs, and academic departments, the Chapter reaches students from different majors, backgrounds, and interests, which creates a wider pool of potential members. By showcasing inclusivity as a key value in all marketing materials and social media posts, the Chapter appeals to a broad range of students. Diverse members share their experiences in these materials, demonstrating the fraternity's openness and commitment to embracing all identities.

To further promote inclusivity, the Chapter plans events that cater to various interests, from academic workshops and community service days to casual socials, making Greek life more accessible to students who might not typically consider it. Emphasizing values-based recruitment allows the fraternity to attract members who share core values and goals,

irrespective of their backgrounds or demographics. Additionally, implementing diversity, equity, and inclusion (DEI) training for recruitment chairs and members has helped create a respectful and welcoming environment. Together, these efforts allow the Chapter to foster a brotherhood that genuinely reflects the diversity of the campus community.

4. Chapter Involvement

- a. How is the Provisional Chapter educating, enabling, and empowering members to get involved in Provisional Chapter operations (holding positions, planning events, etc.)?

The Chapter encourages members to be involved by not only requiring every member to have a job in some capacity, whether that be an executive board role, chairman role, or committee member, but also involving the members in Chapter decisions. Some things that the members are involved in are helping plan mountain and beach weekends and looking at the Chapter's budget and deciding on themes for philanthropy and campus events like Airband and Greek Weekend. The Chapter is highly encouraged to help provide ideas for brotherhood events and other social events with other organizations throughout campus. Our brothers are also very committed to their positions and have their committee's to help plan events and make sure they operate smoothly.

A major component of each officer or committee role is planning the events that the particular position oversees. Members are responsible for those events and take an active role in planning them. With the creation of committees across the Chapter, members are not only required to participate but encouraged to join more than one committee that interests them. Some of the committees the Provisional Chapter has include the recruitment committee, brotherhood committee, public relations committee, philanthropy committee, fundraising committee, and more. Brothers are empowered to take positions that they have previously served in the committee for when other members choose to step down, ensuring that roles are always filled and responsibilities are always addressed.

Section 4 - To My Fraternity...

Section 4 should explain how the fraternity has become operationally sound through its time as a Provisional Chapter. Please write a 2-3 paragraph description per question (a. & b.) The areas to highlight in this section are:

1. Accountability

- a. How are members held accountable for their behavior?

Under the leadership of Sergeant-at-Arms Nassim Sahir, Pi Kappa Alpha's Provisional Chapter at UNC Charlotte enforces a clear and structured approach to accountability, grounded in the fraternity's core values of Truth, Love, and Friendship. Nassim, along with the judicial board, upholds academic, conduct, and financial standards, ensuring that every brother understands his responsibilities. At the beginning of each semester, Nassim clearly outlines these expectations, setting a proactive tone that encourages members to strive for personal excellence. Through frequent individual check-ins, he maintains an active understanding of each brother's commitment to PIKE's principles, fostering an environment in which every member feels encouraged to embody integrity and truth in their actions.

When a brother falls short of his promises, Nassim exemplifies the fraternity's values by confronting the issue with both honesty and compassion. True love and friendship within Pi Kappa Alpha means telling a brother when he is not meeting his commitments and helping him understand the path

forward. This approach aligns with the PIKE values, where accountability is not only a matter of maintaining order but also a means of supporting one another in becoming better men. The judicial board, in turn, reinforces these values by meeting regularly to discuss individual cases and apply sanctions as needed. Whether the issue involves academic performance, financial standing, or conduct, the judicial board applies consistent, fair consequences that uphold the fraternity's standards.

b. How active is the judicial board in reviewing and enforcing the bylaws?

The judicial board, chaired by the Sergeant at Arms, plays a highly active role in regularly reviewing and enforcing the Chapter's bylaws, ensuring that they remain relevant and effective. This board meets weekly to discuss various cases and potential bylaw adjustments, often presenting their recommendations to the Executive Council. This structure allows the board to address both immediate issues and long-term needs, balancing the day-to-day enforcement of policies with the ongoing improvement of Chapter governance.

The commitment to accountability extends beyond enforcement; Nassim leads a Bylaws Committee that meets at the end of each semester to perform a comprehensive review of every bylaw, with any necessary amendments added to improve Chapter operations. This ongoing oversight not only maintains high standards but also strengthens the Chapter's operational foundation, ensuring it continues to align with the values of Pi Kappa Alpha. Through proactive measures and diligent review processes, the judicial board exemplifies its dedication to supporting the fraternity's success.

2. Health & Safety

a. How is the Provisional Chapter *proactive* in their health & safety education?

The Provisional Chapter of Pi Kappa Alpha at the University of North Carolina at Charlotte demonstrates a proactive stance in health and safety education. This occurs through the written Health and Safety program. Some of the many ways that the Chapter is educated on Health and Safety include having speakers come into the Chapter on some topics, such as hazing and how to stop it and how to handle an emergency when it happens to name a few of the topics. The provisional chapter is also proactive by attending university hosted events that speak on the topic of Health and Safety within Greek Life UNC Charlotte. The Chapter encourages active brothers to attend these presentations, as they are extremely beneficial. The Health and Safety Officer, before any social event that requires sober/event monitors, will present to these selected monitors their roles and duties that they have to uphold to maintain the safety of the event. There is a written handbook for each and every monitoring position, this entails that every monitor knows their role. To maintain that an event can be as safe as possible the only people that are permitted to attend these socials are the ones on the closed guest list. Health and Safety strives to instill the values of safety within every new member. This was ensured by working with the Vice

President of Membership Development to create a plan where the new members of the Chapter understand PIKE's values and stance on hazing as well as how serious the safety of every member and guest of PIKE is.

The Chapter has installed a crisis management plan in case of an emergency. This includes the Health and Safety Officer going around the event space to make sure to take away any risk that can occur at a social event. To keep the risk low the only guest permitted to enter a social event are the guests on the closed guest list. At any social event guests are not permitted to bring in outside drinks, nor any glass containers. The Chapter ensures the safety of its guests by only limiting them to four drinks. Guests must show a state ID to show that they are above the age of 21 to be allowed to be served at the bar. The Chapter has implemented a wristband system to ensure that the guest over 21 can only receive a drink from the bar. At any event space where a social event occurs there has to be a first aid kit on site at all times. As well as observing the space of the social event to ensure that there are no hazards in place. These are the precautions that the Chapter takes to ensure the safety of the guests at any social events.

- b. What areas of improvement will the Provisional Chapter focus on to address issues of hazing, sexual assault & harassment, and the abuse of alcohol and other drugs?

To further enhance health & safety measures, the Chapter acknowledges the importance of fostering a culture of education and teamwork throughout the entire brotherhood, rather than limiting the responsibility solely to the Health & Safety Committee. While recognizing the need for improvement, the Chapter places a heightened emphasis on education and teamwork as essential components of its strategy.

By broadening the scope to involve the entire brotherhood, the provisional chapter aims to instill a collective sense of responsibility for the well-being of its members. This shift from an individual committee to a collaborative approach emphasizes the importance of shared values and mutual support within the fraternity. The goal is to make health & safety a shared commitment, encouraging active participation from all members. This approach not only ensures that health & safety initiatives are more widely understood but also promotes a sense of unity and camaraderie. Education becomes a tool for empowerment, enabling every member to contribute to the creation of a safer and healthier environment. Through teamwork, the brotherhood can collectively address issues such as hazing, sexual assault & harassment, and substance abuse, creating a more comprehensive and inclusive health & safety program.

Additionally, as part of the requirements from the UNC Charlotte Office of Fraternity and Sorority Life, the Chapter must complete its hazing prevention programming, and have at least one program within the Gold Standard program at UNC Charlotte focused on harassment, stalking, sexual assault, and the abuse of alcohol or other drugs. The Chapter creates its own programs and completes them at least once per year in line with the requirements from the Office, continuing to have a proactive approach to Health and Safety.

3. International Fraternity Engagement

- a. How are members encouraged and incentivized to attend PIKE University events?

Members are encouraged to go to PIKE U events in multiple ways. Members that attend a PIKE U receive points through the Chapter points system, which gives the members opportunities for prizes including reduced dues, PIKE merch, and being named brother of the month. Additionally, the Chapter attempts to reduce the price of PIKE U through early registration and alumni donations. Last year, the Kappa Kappa Alumni Association donated \$1,000 dollars for ten members to attend PIKE U in Atlanta,

as well as covering the registration fee for one of the members for the International Convention in Oklahoma City. After every PIKE U event, a presentation is given on the information given at that PIKE U event. These presentations allow all the members of the Chapter to build on their fraternity knowledge and help improve the Chapter. The biggest part of these presentations have been Chapter operations and membership development.

Members are further incentivised and encouraged to attend through older members sharing stories about their experiences at PIKE University events. Members have shared not only the educational aspect, but the ability to meet brothers from across the region, the country, and the world. The unique opportunity is shared and put on display regularly between members. It is a privilege to attend PIKE U events, and it is talked about that way. Furthermore, the members discuss different things they have gotten out of PIKE U, such as unique networking opportunities, the ability to speak with Leadership Lecture Series speakers to learn more about topics they're interested in, and the privilege to get contacts from other Chapters.

- b. How are lessons learned from PIKE U and the International Fraternity Staff implemented into the Provisional Chapter's operations?

When members return from PIKE U events, they share what they've learned with the Chapter, covering topics such as Chapter operations, recruitment strategies, and membership development. These presentations help align members with best practices recommended by Fraternity Staff, expanding the Chapter's collective knowledge and creating a larger pool of potential leaders. This process ensures that more members are equipped to step into key roles, promoting long-term success.

In addition to sharing practical knowledge, these presentations inspire younger members by fostering a culture of learning and personal growth. By seeing their peers apply the skills they've gained, newer members are encouraged to seek out similar opportunities, creating a dynamic environment where members are motivated to grow and contribute to the fraternity's success.

4. Campus accreditation

- a. How has the Provisional Chapter performed in local accreditation programs and what non-athletic campus awards, if any, have been received?

applies for every award. To date, in the Chapters short history, it has not won a Greek Award at the aforementioned annual announcement of awards.

In terms of non-athletics campus awards, the Chapter participated in multiple Greek Week activities, taking home a couple wins. First, the largest trophy the Chapter has to date, the annual Airband competition put on by the Office of Fraternity and Sorority Life. Airband is an annual dance competition in which there are two categories; the fraternities and the sororities. The Chapter participated for the first time and won the competition in the fraternity category. Secondly, the Chapter participated in the Hygiene Drive, an annual competition aimed at donating the most amount of goods that are hygiene related to be given to the local community. This is, similarly to Airband, broken into two categories; fraternities and sororities. Amongst all fraternities, the Chapter took first place in the hygiene drive, donating over 2000 individually wrapped items. Finally, the Chapter has participated in multiple sorority philanthropy competitions, taking home the win in a couple categories. In Alpha Chi Omega's annual Walk a Mile in Her Shoes event, the Chapter took first and third place overall. In Zeta Tau Alpha's Big Man on Campus, a member was crowned Best Overall Interview.

Overall, the Chapter sees further success in its future as it has learned and grown over time. The wins above are only the beginning; having the courage to win is what matters to the membership. The Chapter sees more wins in its future, and will only build off of what it has seen. Additionally, with a specific person overseeing the Gold Standard programming, the Chapter will ensure its goals are met, and that it is not only eligible for awards at the annual Greek Awards, but wins.

The Provisional Chapter performs annually in the Office of Fraternity and Sorority Life Gold Standard, a list of programs and requirements every Chapter is meant to complete from spring break to spring break annually. The Chapter completed 13/14 requirements in 2023-24, and is on track to exceed the requirements in 2024-25. The Chapter attended the annual Greek Awards for the first time in 2024, realizing that Greek Awards are determined by Gold Standard Programs. With that in mind, the membership set a goal to win at least one if not two awards related to Community Service specifically, and to ensure that the Chapter is overall eligible for every possible award and

Section 5 - To My Community...

Section 5 should explain how the Provisional Chapter has interacted and engaged with different service organizations, philanthropies, and the campus community. Please write a 2-3 paragraph description per question (a. & b.) The areas to highlight in this section are:

1. Service and Philanthropy
 - a. How has the Provisional Chapter selected its charitable and philanthropic partners?

The Provisional Chapter of Pi Kappa Alpha at Charlotte selects its charitable and philanthropic partners by asking the brotherhood what charitable organization matters to them the most. Then the Chapter decides what charity makes the most impact in our community and asks them to be partners with us for our philanthropy. In the past fall semester we were paired up with the Isabella Santos Foundation or in short ISF. The Isabella Santos Foundation envisions changing the landscape of rare pediatric cancer treatment from diagnosis to survivorship worldwide. The Chapter has also partnered in the community with local dog shelters and other funds. All of the funds are donated to the partner the Chapter selects for a good cause that has meaning to them and an impact in our community.

For example, when we chose to donate to the Isabella Santos Foundation because the Chapter as a whole decided that they wanted to help ISF with finding more treatments options for rare pediatric cancer.

Our philanthropy chair then reached out to ISF to pair up with them for our philanthropy. We had the whole Chapter work a shift at our alumni's catering company to raise \$3,000 for ISF. We also raised \$5,000 throughout our philanthropy week by having events on campus like sorority pin war. Pin wars is where we make a pinboard with all the sororities and have them compete with each other to put the most pins they can on their section of the board. The sorority with the most pins on the board at the end of the week gets 20% of what I make throughout the week donated to their philanthropy of choice.

b. How has the Provisional Chapter engaged with other campus or Greek service/philanthropy events?

The Provisional Chapter of Pi Kappa Alpha at Charlotte has engaged with Greek life on campus for service/philanthropy events by doing joint events with each other. We have had a creek cleanup with a couple sororities. The sororities we have done a creek cleanup with are Kappa Alpha Theta and Alpha Chi Omega. We have adopted a creek next to campus and made it ours by going out there to pick up trash and make sure the surroundings are clean. Our community

service chair makes sure we have bi-weekly creek clean up with brothers and other greek organizations to make sure that our creek always stays nice and clean.

The Pi Kappa Alpha Chapter at Charlotte has also paired up with the Nu Rho Chapter of Sigma Gamma Rho Sorority Inc. for a clothing drive for a joint philanthropy. We will be tabling for two weeks in January for three days each week to maximize the amount of clothes we get. We will also be putting boxes around campus for students to donate clothes for our philanthropy. This will be a part of Sigma Gamma Rho's Wellness for All initiative and we will be collecting clean/gently used clothing to those in need. All donations will be distributed to our partner, Devonshire Elementary, to ensure that students and their families have access to clothing.

2. Community Engagement

- a. How does the Provisional Chapter engage in positive, proactive communication with the community? i.e. University, local community, sororities, and parents of members, etc.

The Provisional Chapter of Pi Kappa Alpha engages in positive proactive communication with the community by making the community chairman make sure we are getting our community service done. The Chapter accomplished their goals of ten community service hours a semester by hosting many community service events throughout the semester. The community service chairman is in charge of hosting events to make sure the brothers reach their goal for the semester. One of the biggest cleanups we do each semester is on our creek that we adapted on Mallard Creek Rd. We had to do two cleanups there in the spring semester and got a sign on the road with Pi Kappa Alpha on it. This was a really big accomplishment for our community service chair as keeping the creek clean helps maintain the creek and our community environment. We also use the creek to do joint cleans up with different greek organizations on campus. Last spring semester we paired up with Kappa Alpha Theta to do a joint creek cleanup for earth day.

Our community service does not stop there. We also do other community service to give back to our community by helping the soup kitchen whenever they host big events and need our help. We also partner up with the greater Charlotte SPCA at adoption events for dogs that are fosters. We had a great time at the event with taking care of the dogs and making sure people see them so they can get adopted into a nice home. We make sure that our families are staying informed with all of this by posting different events we do on our social media. Instagram and Facebook are where parents see all the community service and different events we do to keep them updated on how the semester is going. These are just a few of the events we have done and have many upcoming events for the rest of the semester to ensure we as a fraternity have the most community service hour in all of greek life.

Additionally, the Chapter has put a focus on participating in any and all events it possibly can. It participates in sorority competitions for philanthropy, regularly donates to different organizations philanthropy around campus, and events hosted by other organizations members join across campus.

- b. How has the Provisional Chapter included campus officials, parents, and other students in their events?

The Provisional Chapter has included members of the community in their events through inviting them to be involved. Various events the Chapter hosts include tailgates, mountain and beach weekend, cookouts, and competing in the annual Airband competition. In 2023, the Kappa Kappa Alumni Association hosted its own Homecoming Tailgate, in which members of the Chapter attended and interacted with them. Rather than have them do this again, the Chapter encouraged the Alumni Association to come to the Chapter's tent and experience the tailgate there. Additionally, the Chapter has planned specific alumni and parent events for alumni members and parents of members to be invited to.

Other students are welcomed at events regularly. Every tailgate, social event, and special event the Chapter welcomes multiple guests from across the campus community. Often through specific invites and welcoming, these guests are allowed and encouraged to attend Chapter events.

3. Campus Involvement

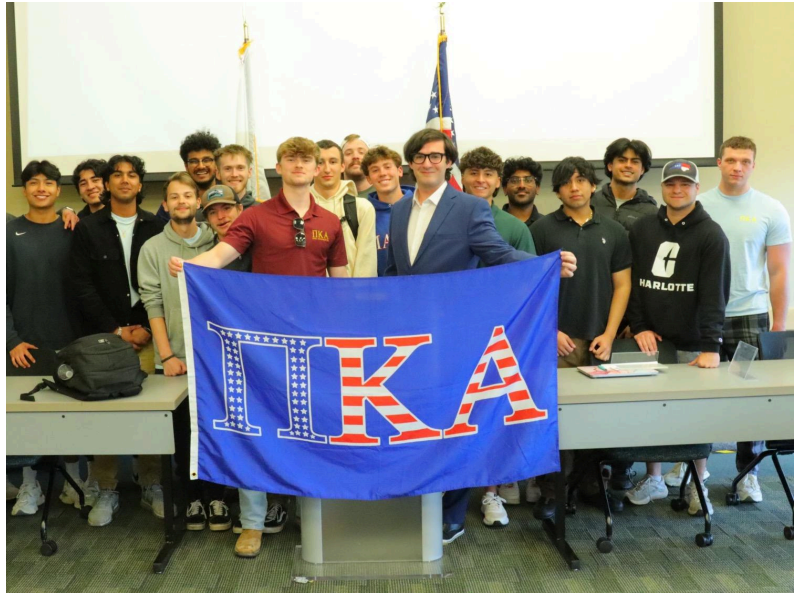

- a. How has the Provisional Chapter fostered involvement of its members in campus organizations and held members accountable to joining other student organizations?

The Provisional Chapter of Pi Kappa Alpha At Charlotte has fostered involvement on campus organizations by the help of our campus involvement chair. His responsibility is to make sure all active members are in another organization along with making sure the new membership also joins another organization. As of Fall 2024, the campus involvement chair has made sure the Chapter has 100% membership in another club or organization. We have members in several other organizations including Student Government Association, Club Basketball, Alpha Kappa Psi Business Fraternity, the Student Activity Fees Commission, and the Sports Clubs Executive Council, with more in many other organizations throughout campus.

Our brothers also excel in all of these clubs with several of them being on the executive board of these organizations. Our former Chapter president Isaiah Gryson is the Student Body President of UNC Charlotte and was also the former Student Body Vice President. James Hobson is on the executive board of his business fraternity Alpha Kappa Psi, and is also an At-Large Member of the Student Activity Fees Commission. Another Member who is really involved on campus is Matthew De La Rosa, who is involved in 8 different organizations on campus including but not limited to SGA, Rocketry club, and Us Cyber Core Scholar Program, serving on the executive board of multiple organizations. Matthew Corley serves on the Sports Clubs Executive Council as a member of the Club Rugby team. The Chapter is involved in many other organizations throughout campus and is one big reason we have a 100% involvement in other organizations throughout campus.

- b. How has the Provisional Chapter leveraged its campus involvement in recruitment?

The Provisional Chapter of Pi Kappa Alpha has leveraged its campus involvement to showcase our brotherhood. The provisional Chapter has brothers in various organizations on campus. Through the brothers in other organizations they are able to represent what it means to be a part of Pi Kappa Alpha, as well as socialize with the other members of their organizations to see if they represent and uphold the values and standards of Pi Kappa Alpha.

In addition to organizations the brothers of the Provisional Pi Kappa Alpha Chapter, brothers also volunteer for on campus activities like events hosted by the school, student registered organizations, and panhellenic sororities. By volunteering for events hosted by other organizations and the school the Chapter is able to be involved on campus as well as create good social standings with the school and the organizations within the school. By volunteering it allows the Chapter to showcase the brothers and show men outside of greek life that it is much more than having “functions” and that we try to give back to others.

Some specific opportunities that have come from the positions members hold include but are not limited to the ability to table at new student events for multiple organizations while all wearing Pike letters, the opportunity for a member to speak in front of the entire incoming Freshman and Transfer student class, and the privilege to make connections with other students through different organizations. It is through those opportunities and events that the Chapter is able to leverage its campus involvement to continue to recruit more men.

4. Council Involvement

- a. How has the Provisional Chapter taken a leadership role within the Interfraternity Council and taken an active role in implementing NIC policy / programming?

While the bylaws of the Interfraternity Council at UNC Charlotte do not allow Provisional Chapter members to sit on the IFC Executive Board the Chapter President attends IFC Presidents meetings where their voice is still heard, the Chapter President also has a vote in IFC elections. While provisional Chapter members are not eligible to run many have expressed interest and wish to run once the Chapter is installed. Prior to the original Kappa Kappa Chapter having its charter revoked in 2013, the Chapter had members on the IFC Executive Board and we are eager to get back in and help lead the council.

Mike McRee visited the UNC Charlotte campus during the spring 2023 semester where he met with all the Greek leaders as well as general and new members from Chapters all across campus. After speaking with him, former Chapter President Isaiah Grayson worked with his executive board to apply his leadership and organization skills into the Chapter.

- b. How has the Provisional Chapter engaged with the other councils? National Panhellenic Council (Panhellenic), National Pan-Hellenic Council (NPHC), Multicultural Greek Council (MGC), or other Greek affiliated councils? All represented councils on campus should be engaged.

Members of the Provisional Chapter engage with the other councils on campus by supporting them in their philanthropies as well as attending their annual events that are unique to their councils.

Members regularly attend these annual events known as “Stroll Off” and “Yard Show” where members of the Diversified Greek Council and National Pan-Hellenic Council dance in front of members of the Charlotte community showing off their brotherhood/sisterhood. The Chapter encourages members to show out to these events in order to show support to the councils.

The Chapter also partners with other councils for the universities “Gold Standard” where we are required to collaborate on an educational event with a Chapter outside of the Interfraternity Council. The Chapter is planning on working with the Gamma Iota Chapter of Lambda Theta Phi Latin Fraternity Inc. on a Cyber Security workshop. The Chapter also plans on working with the Nu Rho Chapter of Sigma Gamma Rho Sorority Inc. for a clothing drive for a joint philanthropy. We will be tabling for two weeks in January for three days each week to maximize the amount of clothes we get. We will also be putting boxes

around campus for students to donate clothes for our philanthropy. This will be a part of Sigma Gamma Rho’s Wellness for All initiative and we will be collecting clean/gently used clothing to those in need. All donations will be distributed to our partner, Devonshire Elementary, to ensure that students and their families have access to clothing.

Officer and Chairman Testimonies and Program Documentation

President

Cameron Harper

charpe27@charlotte.edu

Testimony

As President of the Fraternity, Cameron oversees all members of the Chapter, including the Executive Board. He also serves as the spokesperson and representative to University staff, alumni, and fraternity officers. Building upon the foundation set by former President Isaiah Grayson, Cameron has been vital in establishing a properly functioning chapter. As President, he has worked to have efficient and effective Chapter and Executive Board meetings, strengthen relationships with the University and Fraternity officials, and assist Executive members to strengthen each aspect of the Chapter.

Cameron developed a plan to revitalize the fraternity. The first step was to prioritize the chapter internally during the Spring 2024 semester. This included assisting the Internal Vice President primarily with scholarship and brotherhood, as well as restructuring the role of Sergeant at Arms. Cameron helped to create an accountability chair to work alongside the Sergeant at Arms. He also helped to conduct an internal review of both the chapter as a whole and all of its members. Members that were not in Good Standing per our bylaws, or not representing the fraternity in a positive manner, were subsequently removed from the Chapter following Chapter policies and procedures. Revamping the Sergeant at Arms position heavily influenced internal operations as well. With the increase in accountability, the Chapter increased its GPA by .295 from Fall 2023 to Spring 2024, rising from thirteenth among IFC Fraternities to eighth, showing the progress the Chapter has made. For brotherhood, the Chapter had our first ever brotherhood retreat in Spring 2024. This, along with many smaller brotherhood events throughout the semester, has brought the Chapter together more than it ever has been before.

The second step was to focus on recruitment, external operations, and membership development. During the Spring 2024 semester, Cameron made the decision to have the entire chapter go through new member education again. It was discovered that many of the members through our internal review did not understand what it meant to be a PIKE. This decision led to a better understanding of PIKE's values, in turn, motivating the members to do better individually and as a collective. For recruitment, Cameron worked alongside the recruitment chair to generate names through existing members, social media, and highschools. In the Fall of 2024, the Chapter had 18 signed bids, almost double that of the year prior. Additionally, the Chapter has continued to receive bids through 365 recruiting, attaining 3 more signed bids in Fall 2024. In regards to external operations, Cameron's focus was primarily community service, philanthropy, and sorority relations. Although not measurable, the Chapter has had its second ever mixer with a sorority this Fall 2024 semester, as well as partnering with a sorority for homecoming. For community service, the Chapter requires at least 10 hours of community service per brother, which has already been surpassed by many. The Chapter coordinates at least one community service event every two weeks to ensure

everyone meets the requirement and that the Chapter can be the Chapter on campus with the most community service hours.

The last step of the plan is to get installed. That is our primary goal for the future. Alongside installing, Cameron's goals consist of winning various awards at the Greek Award Ceremony held each year. The awards the Chapter is focusing on most are community service hours and best programming. He hopes to leave the Chapter better than it ever was, where brothers can succeed as an organization and individuals. Cameron has worked diligently with all areas of operation to ensure installation occurs. Through providing guidance, advice, and leadership, he leads the Chapter to growing the members' individual skills and abilities to further not only their own interests, but those of the Chapter.

Management (President, Internal & External VPs)

1. Printed and read President and Vice President Handbooks Yes/ No
 - a. President Handbook - Kunj has printed and read the Athletics Handbook - Internal Vice President Handbook
 - b. [President Handbook](#)
 - c. [External Vice President Handbook](#)
 - d. [Internal Vice President Handbook](#)
2. Create written President and Vice President Programs (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. President - External Vice President - Internal Vice President Handbook
 - b. [President Program](#)
 - c. [External Vice President Program](#)
 - d. [Internal Vice President Program](#)
3. Weekly Executive Council meetings Yes/ No
 - a. The Provisional Chapter defines the Executive Board differently from the Executive Council. The Executive Board which includes: the President, Internal Vice President, External Vice President, Membership Development Vice President, Sergeant at Arms, Health and Safety, Recruitment Officer, Treasurer, and Secretary. The Executive Council as defined by the Chapter is the Executive Board and all Chairman under the Executive Board. The Executive Board meets on a weekly basis, and the broader Executive Council meets on a monthly basis.
4. Review and educate members on IFC policies Yes/ No
 - a. Attached is the IFC Constitution, which members are educated on regularly.
 - b. [IFC Rules](#)
5. Ensure all positions are filled and members are serving on committees Yes/ No
 - a. All positions in the cabinets are filled, and every member of the Chapter serves in a committee if not in the Executive Cabinet or Council.
 - b. [Executive Roster](#)
6. Weekly committee reports at chapter meeting (every committee should have a report) Yes/ No
 - a. The Chapter Minutes detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly reports. Every officer on the Executive Board and in the extended Executive Council is

- required to provide an update through the Chapter Slides at every meeting of the Chapter, which are also reflected in the Chapter minutes folder.
- b. [Minutes Folder](#)
 7. Hold weekly provisional chapter meetings Yes/ No
 - a. The Chapter Agendas detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly Provisional Chapter meetings.
 - b. [Chapter Agenda Folder](#)
 8. Revise and update the provisional chapter by-laws Yes/ No
 - a. The chapter holds monthly executive council meetings to update and vote on by-law changes
 - b. [Chapter Bylaws](#)
 9. Chapter goals documented and distributed to members Yes/ No
 - a. Chapter goals are created at the beginning of every semester during the first Chapter Meeting of the semester. They are also reviewed and discussed at semesterly Executive Board retreats, ensuring that the Board is on the same page as they lead the Chapter discussions regarding Chapter goals for the semester.
 10. Have a representative from the provisional chapter attend IFC meetings Yes/ No
 - a. Cameron attends the monthly IFC meetings. If he cannot attend he sends a proxy.
 11. Establish regular meeting times with the Greek Advisor Yes/ No
 - a. Cameron meets with the Greek Advisor as needed, typically bi-weekly. Cameron also attends, or sends a proxy to, the Office of Fraternity and Sorority Life President meetings.
 12. All positions begin documenting working handbooks Yes/ No
 - a. All positions began documenting working handbooks, and continue to update them as they see fit and where needed.
 - b. [All Officer Handbooks](#)
 13. Calendar of events for the upcoming academic term/year Yes/ No
 - a. Before each semester, the executive board lays out the calendar for the upcoming semester. During Executive Board meetings, the calendar is updated accordingly throughout the year.
 - b. [Google Calendar](#)
 14. Executive council meets with AAB Yes/ No
 - a. Yes, members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended these meetings virtually when able.
 15. President meets regularly with the chapter advisor Yes/ No
 - a. Cameron meets with the Chapter Advisor, Josh Rice, at least once a week. Throughout the week, they communicate regularly through text and by phone.
 16. Vice presidents meets regularly with the operations advisor Yes/ No
 - a. The Vice Presidents meet regularly with the Operations Advisor of the AAB, while also recognizing the Advisor is new to the role. They have begun regular communication and work closely with the Chapter Advisor to ensure that there are regular conversations between alumni advisors and the Chapter.

17. Meetings attended by the chapter advisor or AAB delegate? Yes/ No
 - a. While not every meeting has a Chapter Advisor or AAB delegate present, Josh Rice the Chapter Advisor and Paul Calarco the Kappa Kappa Alumni Association President attend one to two Chapter meetings a month. Additionally, other members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended meetings virtually when able.

18. Chapter facilitates regular retreats (brotherhood, rush, exec, transition, etc) Yes/ No
 - a. The Chapter has held brotherhood and executive board retreats. The Chapter also plans to hold a transition retreat after installation.
 - b. [Exec Retreat General Notes](#)
 - c. [Exec Retreat Agenda](#)

19. Goals reviewed/revisited each semester? Yes/ No
 - a. The Executive Board holds an Exec Retreat at the end of every semester to review the semester and outline goals.

20. Chapter and executive council meetings attended by Advisor and/or AAB members Yes/ No
 - a. The Chapter Advisor has attended Chapter Meetings as well as Executive Board meetings.

21. Goals are revisited and updated if necessary Yes/ No
 - a. The goals are established before the semester, then if necessary, updated halfway through the semester.

Internal Vice President

Matthew De La Rosa

mdelaro2@charlotte.edu

Testimony

The Internal Vice President position within the Pi Kappa Alpha Provisional Chapter at The University of North Carolina at Charlotte has a rich history of leadership and excellence. Matthew De La Rosa's predecessors, Matthew Corley and Dylan Ilg, laid the groundwork for what the IVP cabinet has become. They created a framework that Matthew was honored to inherit, building a foundation of collaboration and innovation that continues to guide the Chapter's internal operations. Their commitment to setting a high bar allowed Matthew to enter the role with a strong foundation from which he could both preserve traditions and push the cabinet to achieve more.

After serving as Health and Safety Officer, Matthew transitioned into the role of Internal Vice President with a clear goal: to continue the trend of excellence while pushing the boundaries of what the internal cabinet could accomplish. His vision was to cultivate a passionate cabinet, bringing in brothers from all year levels who were enthusiastic about making an impact. To keep pace with the evolving needs of the Chapter, he reformed the cabinet by creating new roles, such as the Fundraising Chair, and overhauling key positions like the Academic Chair to address the growing demands placed on the brotherhood.

The Alumni Relations Chair has been crucial in fostering relationships with former members, helping to maintain strong ties with alumni members. One of the notable successes of this position has been the continued organization of the Alumni Homecoming Tailgate, which allows the alumni to reconnect with the active Chapter. Beyond that, the Chapter has strengthened bonds with notable alumni such as Justin King, whose catering business, Best Impressions, has provided employment opportunities for brothers and supported Chapter recruitment dinners. These partnerships have been invaluable in bridging the gap between current members and the alumni network, enhancing both social and professional connections.

The Historian plays an integral role in preserving the legacy of the Chapter. Through diligent documentation of events, traditions, and accomplishments, the Historian ensures that the Chapter's story is accurately recorded and celebrated. This position remains one of continuity, and while the responsibilities have been consistent, it has been expanded to better capture the evolution of the brotherhood. With a growing Chapter, this role has taken on more significance, ensuring that the Chapter's rich history is passed down to future generations of brothers.

The Brotherhood Chair's responsibilities are central to maintaining the strong sense of unity that defines Pi Kappa Alpha. Under Matthew's leadership, this position has focused on creating meaningful, cost-effective, and consistent events, allowing us to engage in activities that strengthen the bond while being mindful of the Chapter's financial resources. Examples of this are weekly basketball tournaments and national sport watch parties. This approach has enabled us to allocate more funds toward larger events, including professional sports outings and a highly anticipated concert event scheduled for the Fall 2024 semester.

The academic success of the brothers is a top priority, and under Matthew's direction, the role of Scholarship Chair underwent a significant overhaul. The Chapter shifted from a team-based academic program to an individualized approach, which has allowed it to provide tailored support to brothers based on their specific academic challenges and needs. This transformation has already led to substantial improvements, with the Chapter's GPA rising to a 3.004, sitting above both the all campus average and all fraternity average on UNC Charlotte's

campus. With continued focus, the Chapter is on track to reach its goal of placing in the top three fraternities on campus for academic achievement.

One of the most impactful changes Matthew implemented was the creation of the Fundraising Chair. This new role has empowered the brotherhood to take ownership of their financial goals, working together to fund initiatives that directly benefit the Chapter. Through this role, over \$1,000 was successfully raised to purchase a tent that has been used for recruitment events, tailgates, and other Chapter activities. The success of this initiative demonstrated the power of collective effort and has opened the door to more ambitious fundraising projects in the future.

Through the dedication and hard work of each member of the Internal Cabinet, the Chapter has reached many of its goals and continues to set the bar higher with each passing semester. The brotherhood's achievements in areas like academics, alumni relations, and financial sustainability reflect its commitment to growth and excellence. As the Chapter pushes forward, it remains focused on not only meeting its goals but exceeding them, ensuring that Pi Kappa Alpha continues to thrive on the UNC Charlotte campus.

Management (President, Internal & External VPs)

1. Printed and read President and Vice President Handbooks Yes/ No
 - a. President Handbook - Kunj has printed and read the Athletics Handbook - Internal Vice President Handbook
 - b. [President Handbook](#)
 - c. [External Vice President Handbook](#)
 - d. [Internal Vice President Handbook](#)
2. Create written President and Vice President Programs (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. President - External Vice President - Internal Vice President Handbook
 - b. [President Program](#)
 - c. [External Vice President Program](#)
 - d. [Internal Vice President Program](#)
3. Weekly Executive Council meetings Yes/ No
 - a. The Provisional Chapter, rather than hosting weekly Executive Council meetings, hosts monthly Executive Council meetings. For a long period of time, most of the membership of the entire Chapter served in the Executive Council; the issue the Chapter was seeing was that the Council would meet Sundays prior to Chapter, and meetings essentially became redundant and had the same membership present for a longer Chapter meeting. Therefore, the Chapter President set meetings monthly to ensure the Council was still able to meet to set goals as needed, while also reducing to the point of eliminating redundant meetings. Over time, the Chapter recruited more men that do not serve on the Executive Council, and still found that the monthly meetings were effective in reorienting members and ensuring goals were making the progress they needed to be making. That being said, the Chapter maintains monthly, rather than weekly, Executive Council meetings.
4. Review and educate members on IFC policies Yes/ No
 - a. Attached is the IFC Constitution, which members are educated on regularly.
 - b. [IFC Rules](#)
5. Ensure all positions are filled and members are serving on committees Yes/ No

- a. All positions in the cabinets are filled, and every member of the Chapter serves in a committee if not in the Executive Cabinet or Council.
 - b. [Executive Roster](#)
6. Weekly committee reports at chapter meeting (every committee should have a report) Yes/ No
 - a. The Chapter Minutes detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly reports. Every officer on the Executive Board and in the extended Executive Council is required to provide an update through the Chapter Slides at every meeting of the Chapter, which are also reflected in the Chapter minutes folder.
 - b. [Minutes Folder](#)
7. Hold weekly provisional chapter meetings Yes/ No
 - a. The Chapter Agendas detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly Provisional Chapter meetings.
 - b. [Chapter Agenda Folder](#)
8. Revise and update the provisional chapter by-laws Yes/ No
 - a. The chapter holds monthly executive council meetings to update and vote on by-law changes
 - b. [Chapter Bylaws](#)
9. Chapter goals documented and distributed to members Yes/ No
 - a. Chapter goals are created at the beginning of every semester during the first Chapter Meeting of the semester. They are also reviewed and discussed at semesterly Executive Board retreats, ensuring that the Board is on the same page as they lead the Chapter discussions regarding Chapter goals for the semester.
10. Have a representative from the provisional chapter attend IFC meetings Yes/ No
 - a. Cameron attends the monthly IFC meetings. If he cannot attend he sends a proxy.
11. Establish regular meeting times with the Greek Advisor Yes/ No
 - a. Cameron meets with the Greek Advisor as needed, typically bi-weekly. Cameron also attends, or sends a proxy to, the Office of Fraternity and Sorority Life President meetings.
12. All positions begin documenting working handbooks Yes/ No
 - a. All positions began documenting working handbooks, and continue to update them as they see fit and where needed.
 - b. [All Officer Handbooks](#)
13. Calendar of events for the upcoming academic term/year Yes/ No
 - a. Before each semester, the executive board lays out the calendar for the upcoming semester. During Executive Board meetings, the calendar is updated accordingly throughout the year.
 - b. [Google Calendar](#)
14. Executive council meets with AAB Yes/ No
 - a. Yes, members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended these meetings virtually when able.
15. President meets regularly with the chapter advisor Yes/ No

- a. Cameron meets with the Chapter Advisor, Josh Rice, at least once a week. Throughout the week, they communicate regularly through text and by phone.
16. Vice presidents meets regularly with the operations advisor Yes/ No
 - a. The Vice Presidents meet regularly with the Operations Advisor of the AAB, while also recognizing the Advisor is new to the role. They have begun regular communication and work closely with the Chapter Advisor to ensure that there are regular conversations between alumni advisors and the Chapter.
17. Meetings attended by the chapter advisor or AAB delegate? Yes/ No
 - a. While not every meeting has a Chapter Advisor or AAB delegate present, Josh Rice the Chapter Advisor and Paul Calarco the Kappa Kappa Alumni Association President attend one to two Chapter meetings a month. Additionally, other members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended meetings virtually when able.
18. Chapter facilitates regular retreats (brotherhood, rush, exec, transition, etc) Yes/ No
 - a. The Chapter has held brotherhood and executive board retreats. The Chapter also plans to hold a transition retreat after installation.
 - b. [Exec Retreat General Notes](#)
 - c. [Exec Retreat Agenda](#)
19. Goals reviewed/revisited each semester? Yes/ No
 - a. The Executive Board holds an Exec Retreat at the end of every semester to review the semester and outline goals.
20. Chapter and executive council meetings attended by Advisor and/or AAB members Yes/ No
 - a. The Chapter Advisor has attended Chapter Meetings as well as Executive Board meetings.
21. Goals are revisited and updated if necessary Yes/ No
 - a. The goals are established before the semester, then if necessary, updated halfway through the semester.

Alumni Relations

Baran Narravula

bnarravu@charlotte.edu

Testimony

As the Alumni Relations Chairman, Baran has worked diligently throughout his term to strengthen the chapter's connection with the Kappa Kappa Alumni Association. Building upon the foundation laid by former Alumni Relations Chairman Matthew Corley and former Internal Vice President Dylan Ilg, Baran has been instrumental in fostering deeper engagement with alumni. Baran also focused on creating lasting ties between past and present members of the chapter.

Collaborating closely with PIKE Foundation Director Samir Hafiz and Kappa Kappa Alumni Association President Paul Calarco, Baran has worked to bridge the gap between alumni and the active Chapter. Baran and Paul successfully initiated a series of alumni events and programs, including inviting alumni to chapter meetings to share how the values of SLAG (Scholars, Leaders, Athletes, Gentlemen) have shaped their lives. The Kappa Kappa Alumni Association has continually helped us out with sponsoring our expenses towards PIKE U and national convention, as well as being a part of the homecoming tailgate. The Greater Charlotte Alumni Association has won awards as an association themselves.

Looking ahead, Baran plans to organize three key alumni events annually: an Alumni Banquet in the fall, a Founder's Day event in the spring, and a summer golf tournament. These events aim to foster stronger connections between alumni and the active chapter, ensuring a lasting relationship that benefits both current members and alumni. In addition, Baran is committed to increasing alumni presence at regular chapter events, further integrating alumni into the fraternity's ongoing activities.

Through his leadership, Baran is creating a sustainable framework for future alumni engagement, laying the groundwork for a thriving network that will support the Chapter for years to come. His efforts will not only strengthen current alumni relations, but also ensure that Pi Kappa Alpha's values and traditions continue to be upheld and celebrated.

Alumni Relations Checklist

1. Print and read the Alumni Relations Handbook Yes/ No
 - a. Baran printed and read the Alumni Relations Handbook.
 - b. [Alumni Relations Handbook](#)
2. Create written Alumni Relations Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Baran created a written Alumni Relations Program that includes the Purpose of the Alumni Relations Chairman, Goals of the position, how to execute/strategize Programs, the Structure of the position, and how to transition the next Alumni Relations Chairman.

- b. [Alumni Relations Goals and Plans](#)
3. Is there an accredited chapter advisor? Yes/ No
 - a. The Chapter has had two Chapter Advisors. Formally, Michael Knapp served as the Chapter's Accredited Advisor from the Chapters inception in November 2022, and was replaced in the role of Chapter Advisor in Fall 2024 by Joshua Rice, the Chapter's current Accredited Advisor.
4. Is there a full 6-member Alumni Advisory Board? Yes/ No
 - a. The Chapter does have a full 6-Member Alumni Advisory Board. Joshua Rice serves as the Chapter Advisor, Bob Beckman serves as Assistant Chapter Advisor, Joe Godwin serves as the Chapter Finance Advisor, Harris Sierra serves as Chapter Operations Advisor, Tyler Williams serves as Chapter Recruitment Advisor, and Michael Knapp serves as a Miscellaneous/General Advisor.
5. Does the chapter have an alumni database of chapter and area alumni? Yes/ No
 - a. The Chapter has and utilizes the alumni database in MyPIKE. Additionally, the Chapter communicates with the Kappa Kappa Alumni Association, who has and maintains a roster of Alumni who have previously graduated from the Kappa Kappa Chapter. The Chapter additionally speaks with the Greater Charlotte Alumni Association, who has and maintains a roster of Alumni who have previously graduated from any Chapter, and live in the Greater Charlotte Region.
6. Create a goal for number of alumni events and alumni newsletters Yes/ No
 - a. Baran created a goal for the number of alumni events to be hosted by the Chapter. Additionally, the Kappa Kappa Alumni Association requests information from the Chapter President to give a Chapter Update in quarterly newsletter updates from the Alumni Association.
 - b. [Alumni Reach Out Plan](#)
7. Contact alumni to request contact information updates and update them on the chapter Yes/ No
 - a. The Kappa Kappa Alumni Association sends out a quarterly newsletter, and requests information from the Chapter President to give a Chapter Update in the aforementioned newsletter, organized and maintained by the Alumni Association Communications Officer Joe Showfety.
 - b. [Alumni Quarterly Newsletters](#)
8. Send out a lost alumni email list Yes/No
 - a. The Kappa Kappa Alumni Association sends out the lost alumni on a quarterly basis in the alumni newsletter organized and maintained by the Alumni Association Communications Officer Joe Showfety.
9. Host an alumni event Yes/No
 - a. The Chapter has hosted multiple events with the Alumni Association. Examples include: Niner Nation Week Homecoming Tailgate, Founders Day Gathering at Vaulted Oak Brewing (an alumni owned Brewery), and multiple programs for the Chapter's University "Gold Standard" requirements. Gold Standard requires the Chapter to host programs, including Alumni Based Programs in which Alumni can discuss different topics with the Chapter and work to advance members

knowledge and skills. Baran has also planned for more alumni to come throughout the year.

10. Update/compare alumni records with Memorial Headquarters and University? Yes/ No
 - a. The Chapter Secretary is tasked with reporting graduate members to alumni status through myPike.
11. Consistent communication with local area alumni? Yes/ No
 - a. Baran is in consistent contact with the Kappa Kappa Alumni Association as well as the Greater Charlotte Alumni Association, and notifies Alumni with Chapter updates and upcoming events.
12. Alumni Mentor Program Yes/ No
 - a. A different Kappa Kappa Alumni comes in frequently to discuss with the Chapter the values of SLAG (Scholars, Leaders, Athletes, Gentlemen), how Pike has shaped their lives, and different professional development skills including finances, time management, and professionalism relating to resumes, cover letters, how to present yourself, and how to utilize your fraternity experience.

Historian

Matthew Corley

mcorley1@charlotte.edu

Testimony

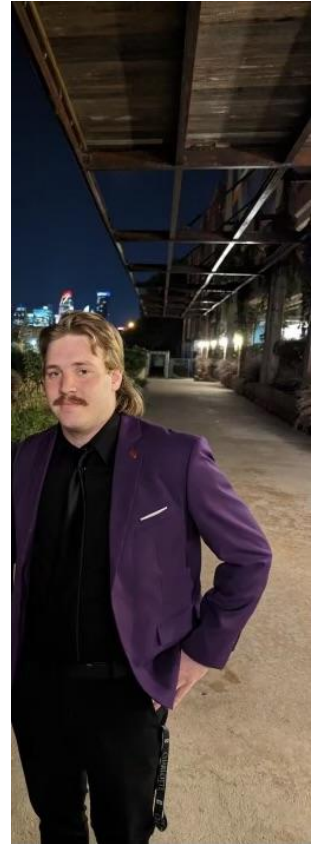

As the Provisional Chapter Historian of Pi Kappa Alpha at the University of North Carolina at Charlotte, Matthew Corley is tasked with the collection, documentation, and preservation of the history of the soon-to-be chapter. He approaches this responsibility through three key methods: event summaries, media collection, and attendance tracking.

Matthew strives to attend every event possible, but if he is unable to, a member of the IVP cabinet is always present. After attending events, he composes a concise 200-word summary that captures the essence and success of each occasion. To streamline this process, Matthew and the team have established an organized archive system, categorizing event summaries by year and month. This system has greatly simplified the documentation process, making it easy to retrieve information about recent events.

The collection of photos and videos is a collaborative effort within the fraternity. When Matthew is present, he takes several photos himself; however, other members also contribute by sharing their pictures in group chats. He then compiles these images into a designated folder, which proves useful when the alumni association requests photos for their newsletters.

Attendance at each event is recorded to help manage a points system that tracks member participation, as well as for safety purposes, ensuring that they know where brothers are during events in case of emergencies. This semester, Matthew's primary objective was to simplify the creation of event summaries for the petition to charter, a goal he has successfully achieved, making the process much more efficient for the executive and IVP cabinet.

Looking ahead, Matthew has set a significant goal to create a chapter yearbook using the various photos, videos, and written accounts of the chapter's history. This yearbook will consist of memories valued by the chapter that will be engraved in its history indefinitely; further contributing to the legacy of the chapter.

Historian Checklist

1. Print and read Historian Handbook Yes/ No
 - a. Matthew has printed and read the Historian Handbook
 - b. [Historian Handbook](#)
2. Create written Historian Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Matthew wrote a Historian Program, complete with purpose, goals, execution, structure, and transition for the next Historian.
 - b. [Historian Program](#)
3. Record chapter history by taking photos and videos of events Yes/ No

- a. Chapter history is recorded through photos at events, and maintained by Matthew in a folder.
- b. [Photos](#)

4. Encourage all officers to write event summaries following events Yes/ **No**
 - a. The Chapter does not currently write event summaries after events. The Historian position has fluctuated and changed multiple times, and Matthew plans to encourage and require members to create event summaries after events moving forward to ensure the proper documentation of events.

5. Collect and file event written summaries Yes/ **No**
 - a. The Chapter does not currently write event summaries after events and therefore does not file event summaries. The Historian position has fluctuated and changed multiple times, and Matthew plans to encourage and require members to create event summaries after events moving forward to ensure the proper documentation of events.

6. Create an electronic filing system to include any pertinent documents, pictures or files **Yes**/ No
 - a. The Chapter utilizes an electronic filing system through Google Drive. All documents, files, pictures, and other materials are maintained and organized within the charlottepikappaalpha@gmail.com Google Drive account.

7. Write a summary of each academic term/year to put into a history book, include photos Yes/ **No**
 - a. Due to the multiple changes and fluctuations in the Historian position, there have not been any summaries of academic terms/years to put into a history book. Moving forward, Matthew plans to write summaries as the Historian, including photos and all other documents from the academic term/year.

Brotherhood

Ben Chlopek

bchlopek@charlotte.edu

Testimony

Ben Chlopek is currently the Brotherhood Chairman for Pi Kappa Alpha at the University of North Carolina at Charlotte. In this role, Ben is responsible for fostering camaraderie and strengthening bonds among the members through a variety of well-planned events and activities.

One of Ben's main initiatives is to organize weekly "casual" brotherhood events, such as basketball or soccer games, every Thursday. These activities not only encourage friendly competition but also promote teamwork and strengthen interpersonal relationships within the Chapter. Additionally, Ben coordinates informal gatherings at the chapter houses, where members can engage in backyard basketball, pong, or simply watch sports together. These events are structured to accommodate everyone's schedules, ensuring a high turnout, with an average of 20 or more brothers participating each week. To make these events more engaging, Ben incorporates small, meaningful traditions and rewards, such as awarding a WWE-style belt to the winners of the "die" tournaments—a tradition that has become a hallmark of the brotherhood, with winners signing their names on the belt after each tournament. These traditions add a layer of excitement and contribute to the shared memories that make the brotherhood experience so rewarding.

An unexpected benefit of these casual gatherings has been their contribution to recruitment efforts. While playing pickup basketball or other sports, the fraternity has had the opportunity to interact with individuals outside the fraternity who were drawn to the camaraderie and energy. In several cases, these individuals expressed interest in joining Pi Kappa Alpha, demonstrating how these events serve a dual purpose: strengthening existing bonds and attracting new members through authentic interactions.

In addition to these weekly activities, Ben organizes larger, monthly events that provide unique and memorable experiences for the brotherhood. These include attending Charlotte Hornets or Charlotte Knights games, which are fully budgeted to ensure maximum participation and enjoyment. Planning these events requires coordination months in advance, utilizing tools such as Google Forms to gauge availability and gather feedback from brothers to ensure everyone can attend. These larger events are an essential way to reward the hard work and dedication of the members while providing an opportunity for them to make lifelong memories together.

Other large-scale initiatives Ben has spearheaded include Chapter cookouts and project-based activities like building custom "die" tables. For example, Ben organized a day where the brotherhood came together to construct a new table for tournaments and tailgates, transforming the project into a team-building exercise and a long-term investment for the Chapter. Similarly, the cookouts are large, well-coordinated events where Ben oversees budgeting for food and supplies, ensuring that the entire Chapter can come together to enjoy a meal and strengthen the bonds of brotherhood.

Ben Chlopek's primary goal is to foster an environment where every member feels deeply connected and valued within the brotherhood. By organizing a balanced mix of weekly casual events and larger monthly outings,

Ben aims to maintain an average attendance of 85% at all brotherhood activities. His goal is to utilize the entire budget effectively, ensuring that brothers see tangible benefits from their involvement. Ben plans to continue building strong relationships across the chapter by encouraging participation from upperclassmen, underclassmen, and new members alike, promoting unity and collaboration in every event.

Ben envisions a future where these events become deeply embedded in the chapter's culture, with new traditions such as the WWE-style belt for tournament winners continuing to grow in significance. He also hopes that casual gatherings will remain a key recruitment tool, attracting potential new members through authentic, organic interactions. By the end of his tenure, Ben plans to leave behind a well-documented and structured program that can be easily transitioned to the next chairman, ensuring that the foundation he's built continues to strengthen the chapter for years to come.

Overall, Ben's experience as Brotherhood Chairman has demonstrated that a balanced mix of smaller, casual events and larger, more elaborate outings is key to fostering brotherhood. Whether it's a casual get-together or a full-scale event like a Hornets game, these activities create opportunities for meaningful interaction and shared experiences. By ensuring that all members are engaged and valued, Ben helps cultivate a strong, unified brotherhood that benefits everyone involved.

Brotherhood Checklist

1. Print and read Brotherhood Handbook Yes/ No
 - a. Ben has printed and read the brotherhood handbook.
 - b. [Brotherhood Handbook](#)
2. Create written Brotherhood Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Ben has created a Brotherhood Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition)
 - b. [Brotherhood Program](#)
3. Hold regular brotherhood events Yes/ No
 - a. Ben has scheduled optional brotherhood including formal and informal. These events include but are not limited to: workout sessions, basketball/football games, lunch/dinners, watch parties, and other activities. Some formal events include Charlotte Hornets games, Knights games, and tournaments.
 - b. [Brotherhood](#)
4. Hold a brotherhood retreat at least once per semester Yes/ No
 - a. Ben has planned a semesterly camping trip allowing the brotherhood to come together and spend time together. This retreat allows us to solve problems, have friendly competition, budget, spend quality time with each other, and make great memories. The retreat for Fall 2024 is camping and the chapter is going October 25th - October 27th.
5. Establish a Brother of the Month Award Yes/ No
 - a. Ben has established a Brother of the Month Award with the Chapter Sergeant at Arms. The Brother of the Month award is recognized on social media and is posted on the Chapters Instagram page. Additionally the

Brother of the Month is given a selection of gifts such as: Gift cards, PIKE merchandise, Party Position Passes, and many more. The brother of the month is selected at the first day of month AFTER the selected month (example for brother of the month on october would be decided on november 1st). This will be announced the first week of the month AFTER the selected month (example: brother of the month for October would be announced in the first week of November). Brother is publicly recognized on social media. Brother is given a selection of awards, such as gift cards, PIKE merchandise, and Party Position Pass.

Scholarship

Dylan Ilg
dilg@uncc.edu

Testimony

As the Scholarship Chairman for the Provisional Chapter of Pi Kappa Alpha at the University of North Carolina at Charlotte, Dylan holds the responsibility of ensuring all brothers prioritize their academic success. As PIKES, they share core values of being scholars, athletes, leaders, and gentlemen. Among these, the pursuit of scholarly excellence is crucial to both personal growth and collective success. Building off the strong foundation laid by his predecessor, Tristen Mejias, Dylan has developed a scholarship plan that not only emphasizes individual accountability but also provides a robust system of academic resources.

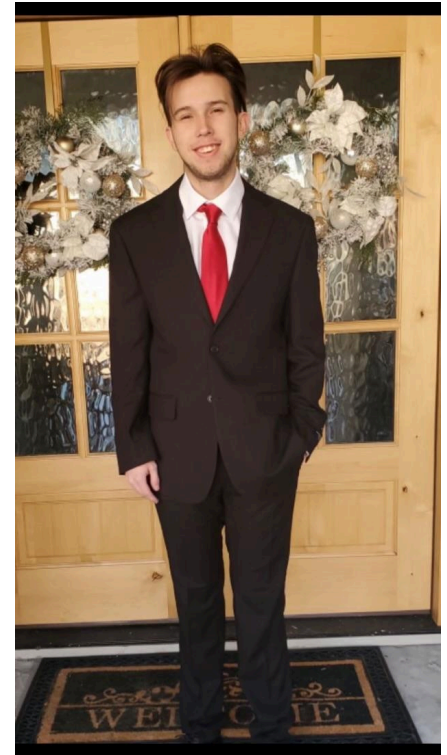

The current goal is to raise the chapter's GPA from 3.004 to 3.2 by the end of the year, which would elevate them to the 2nd highest GPA among the fraternities in the Interfraternity Council. This is a significant step, as they previously ranked 7th out of 12. Dylan believes that with the right focus and resources, this goal can be achieved.

To support this, Dylan has established study rooms in the library, organized academic workshops, and ensured that tutoring services are readily accessible to all brothers. Additionally, a new system has been implemented where study hours are updated through grade checks, either weekly or monthly, depending on each brother's academic tier. This allows for a more dynamic and personalized approach to academic improvement. Individual scholarship meetings are also held where Dylan works with brothers to create personalized success plans tailored to their academic needs.

To encourage academic dedication, brothers who log the most study hours are recognized during chapter meetings, fostering a spirit of healthy competition. Academic study teams have been formed, grouped by major, to provide specialized support for coursework and exams. Recognizing the importance of early support for new members, Dylan has introduced a new member success plan, offering structured guidance and access to all necessary academic resources.

Additionally, an academic resource page has been developed that consolidates vital tools, links to university tutoring services, study file access (where allowed), and contact information for advisors. This comprehensive resource ensures academic support is easily accessible, empowering all brothers to excel.

With these measures in place, Dylan is confident that the chapter will not only meet but exceed its academic goals, continuing to foster an environment of excellence. By continuously refining their approach, building upon the work of past leaders, and adding new resources, they aim to ensure that every brother achieves their full academic potential.

Scholarship Checklist

1. Print and read the Scholarship Handbook Yes/ No
 - a. Dylan printed and read the handbook
 - b. [Scholarship Handbook](#)

2. Create a written Scholarship Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. The scholarship program outlines the purpose, goals, execution/strategy, structure, and transition of the scholarship chair.
 - b. [Scholarship Program](#)

3. Are there minimum academic requirements for membership? Yes/ No
 - a. The minimum GPA for membership is 2.7.
 - b. [Charlotte Membership Contract](#)

4. Enforce minimum GPA requirements Yes/ No
 - a. The GPA requirement is enforced when recruiting new members and by the judicial board for existing members.

5. Update by-laws with academic standards Yes/ No
 - a. The bylaw committee routinely updates the bylaws.
 - b. [Bylaws Version 3](#)

6. Establish optional group study times Yes/ No
 - a. Study Rooms are sent out weekly.
 - b. [Study Rooms](#)

7. Create a chapter GPA goal for the academic term/ year Yes/ No
 - a. The goal set by the chapter at the goal-setting retreat for spring 2024 is a chapter GPA of 3.2
 - b. [Chapter Goals 2024](#)

8. Incentives for academic achievements Yes/ No
 - a. There are awards such as Academic Weapon, Study Superstart, and Most Improved.
 - b. [Pike Scholarship Plan](#)

9. Create a study hour program for members with the study hours determined by GPA Yes/ No
 - a. Instead of study hours being determined by GPA they are determined by a grade check and updated via Greek study either monthly or weekly based on what Academic tier a brother is in.
 - b. [Pike Scholarship Plan](#)

10. Create academic study teams Yes/ No
 - a. Each brother's major determines academic teams
 - b. [PIKE.Resource Page](#)

11. Tutors available for members (either through brothers or through the university) Yes/ No

- a. Tutoring Services are readily available for all brothers and older brothers of similar majors are encouraged to assist younger brothers.
 - b. [PIKE Resource Page](#)
12. Create study files (if allowed at your university) Yes/ **No**
- a. Study files are physically stored with the internal vice president and accessible upon request. Additionally, grade checks allow the scholarship chair to distribute material where he believes it is needed.

External Vice President

Kunj Patel

kpate224@charlotte.edu

Testimony

As the Provisional Chapter External Vice President of Pi Kappa Alpha at the University of North Carolina at Charlotte, Kunj Patel is responsible for the efficient and effective operation of all chairman positions in the External Cabinet. The cabinet currently consists of seven chairman positions: Campus Involvement, Community Service, Philanthropy, Social, Athletics, Special Events, and Public Relations. The External Cabinet has worked to develop a program that fosters social preference, community and university involvement, athletic excellence, and a robust social media presence.

Monitoring and promoting members' activity outside of the fraternity is the main duty of the Campus Involvement Chairman. The Community Service Chairman is in charge of organizing and carrying out community-beneficial events, such as working for a local company to raise money for children with cancer. The Social Chairman is in charge of organizing events and keeping a contact list of other sororities and fraternities on campus in order to build and maintain partnerships with other Greek organizations. High levels of preparation and communication are necessary for this position. The External Cabinet represents Pi Kappa Alpha in negotiations with other Greek groups that are involved in the planning of several events. Providing a gift basket for Alpha Chi Omega's charter day in November is a great example of events run by this chairman position. The Chairman of Athletics forms teams and alerts the Chapter of openings to participate in any type of athletic event. Greek week, Homecoming, intramural sports, and any other possibilities that present themselves could fall under this category. He frequently makes an appearance on any particular sports team or serves as a coach to assist in setting up the framework needed to promote athletic excellence. The spring 2023 intramural basketball team is the ideal illustration of this chairman taking on the role of coach and player. Lastly, our chairman for public relations and social media is in charge of maintaining and updating our social media pages. In addition, he has to maintain and improve our website as needed, carrying out the usual duties of a webmaster. Being able to represent the Chapter to the public is another benefit. He serves as the primary source of information that the Chapter disseminates to the general public. A straightforward fall or spring rush post or a summary of a well-attended social gathering can be examples of this. The External Cabinet discusses operations, both past and present, at weekly meetings. By listening to one another's critical feedback and supporting each other's success strategies, these meetings have helped us all develop as leaders. Kunj assists each of them with their own operations and planning in addition to these meetings. For example, the social chairman and Kunj will collaborate in organizing, coordinating, obtaining supplies, and keeping an eye on the event while it is taking place in regards to a sorority social event. Reaching out and getting a contact list and keeping it up to date is their joint responsibility. Kunj can quickly address any queries or worries with this practical method. While in addition, ensuring that everything runs without any problems.

The men are still aspiring to be in leadership roles as the Chapter expands, many of whom are more than capable of taking advantage of the limited openings that now exist. It has made it relatively simple to make plans to add new positions and expand existing ones. Though Kunj believes the Chapter can keep growing in all directions

and emerge as the most active and prosperous Chapter on campus, he is glad to have contributed to many of the Chapter's accomplishments.

Kunj's first goal for the future of his position starts with expanding the social chairman position through having the social chairman create a committee to help with organizing events. He also wants the social chair to have someone in his committee focus on sorority relationships and to communicate with sororities on events that the Chapter could do in the future. In addition, Kunj wants to keep expanding the list of organizations that are included in Chapter volunteer opportunities. In the upcoming semesters, the Chapter's top priority will be giving back to the community that has welcomed it with open arms. As a Cabinet, the External members have decided to add a philanthropy chairman and to have a community service chairman. They did this to delegate the work while also having one person solely focus on philanthropy week. The community service chairman will find the Chapter opportunities to volunteer and will also be in charge of tracking hours for all members. The ten service hours per semester that have been mandated as a minimum seem reasonable and doable, but they will also be reviewed after each semester. The Chapter also has one person for special events like formals and other big events we do throughout the semester. This puts less work on the social chairman and provides the Chapter with another person's idea and opinions on what events are ideal for the Chapter. The Athletics Chairman is next in line. He and the Recruitment Chairman will start holding formal meetings to assist in increasing the number of brothers capable of making a positive impact on intramural sports. The Chapter can replicate any successful practices quickly the more the Chapter is able to monitor meetings and accomplishments. This year has been full of accomplishments and teaching moments, but with this group of exceptional men, the possibilities are endless. Kunj is excited to put in even more effort and watch what the Chapter can accomplish in the upcoming years.

Management (President, Internal & External VPs)

1. Printed and read President and Vice President Handbooks Yes/ No
 - a. President Handbook - Kunj has printed and read the Athletics Handbook - Internal Vice President Handbook
 - b. [President Handbook](#)
 - c. [External Vice President Handbook](#)
 - d. [Internal Vice President Handbook](#)
2. Create written President and Vice President Programs (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. President - External Vice President - Internal Vice President Handbook
 - b. [President Program](#)
 - c. [External Vice President Program](#)
 - d. [Internal Vice President Program](#)
3. Weekly Executive Council meetings Yes/ No
 - a. The Provisional Chapter, rather than hosting weekly Executive Council meetings, hosts monthly Executive Council meetings. For a long period of time, most of the membership of the entire Chapter served in the Executive Council; the issue the Chapter was seeing was that the Council would meet Sundays prior to Chapter, and meetings essentially became redundant and had the same membership present for a longer Chapter meeting. Therefore, the Chapter President set meetings monthly to ensure the Council was still able to meet to set goals as needed, while also reducing to the point of eliminating redundant meetings. Over time, the Chapter recruited more men that do not serve on the Executive Council, and still found that the monthly meetings were effective in reorienting members and ensuring goals were making the progress they needed to be making. That being said, the Chapter maintains monthly, rather than weekly, Executive Council meetings.

4. Review and educate members on IFC policies Yes/ No
 - a. Attached is the IFC Constitution, which members are educated on regularly.
 - b. [IFC Rules](#)
5. Ensure all positions are filled and members are serving on committees Yes/ No
 - a. All positions in the cabinets are filled, and every member of the Chapter serves in a committee if not in the Executive Cabinet or Council.
 - b. [Executive Roster](#)
6. Weekly committee reports at chapter meeting (every committee should have a report) Yes/ No
 - a. The Chapter Minutes detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly reports. Every officer on the Executive Board and in the extended Executive Council is required to provide an update through the Chapter Slides at every meeting of the Chapter, which are also reflected in the Chapter minutes folder.
 - b. [Minutes Folder](#)
7. Hold weekly provisional chapter meetings Yes/ No
 - a. The Chapter Agendas detail every week that the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte had weekly Provisional Chapter meetings.
 - b. [Chapter Agenda Folder](#)
8. Revise and update the provisional chapter by-laws Yes/ No
 - a. The chapter holds monthly executive council meetings to update and vote on by-law changes
 - b. [Chapter Bylaws](#)
9. Chapter goals documented and distributed to members Yes/ No
 - a. Chapter goals are created at the beginning of every semester during the first Chapter Meeting of the semester. They are also reviewed and discussed at semesterly Executive Board retreats, ensuring that the Board is on the same page as they lead the Chapter discussions regarding Chapter goals for the semester.
10. Have a representative from the provisional chapter attend IFC meetings Yes/ No
 - a. Cameron attends the monthly IFC meetings. If he cannot attend he sends a proxy.
11. Establish regular meeting times with the Greek Advisor Yes/ No
 - a. Cameron meets with the Greek Advisor as needed, typically bi-weekly. Cameron also attends, or sends a proxy to, the Office of Fraternity and Sorority Life President meetings.
12. All positions begin documenting working handbooks Yes/ No
 - a. All positions began documenting working handbooks, and continue to update them as they see fit and where needed.
 - b. [All Officer Handbooks](#)
13. Calendar of events for the upcoming academic term/year Yes/ No
 - a. Before each semester, the executive board lays out the calendar for the upcoming semester. During Executive Board meetings, the calendar is updated accordingly throughout the year.
 - b. [Google Calendar](#)

14. Executive council meets with AAB Yes/ No
 - a. Yes, members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended these meetings virtually when able.
15. President meets regularly with the chapter advisor Yes/ No
 - a. Cameron meets with the Chapter Advisor, Josh Rice, at least once a week. Throughout the week, they communicate regularly through text and by phone.
16. Vice presidents meets regularly with the operations advisor Yes/ No
 - a. The Vice Presidents meet regularly with the Operations Advisor of the AAB, while also recognizing the Advisor is new to the role. They have begun regular communication and work closely with the Chapter Advisor to ensure that there are regular conversations between alumni advisors and the Chapter.
17. Meetings attended by the chapter advisor or AAB delegate? Yes/ No
 - a. While not every meeting has a Chapter Advisor or AAB delegate present, Josh Rice the Chapter Advisor and Paul Calarco the Kappa Kappa Alumni Association President attend one to two Chapter meetings a month. Additionally, other members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended meetings virtually when able.
18. Chapter facilitates regular retreats (brotherhood, rush, exec, transition, etc) Yes/ No
 - a. The Chapter has held brotherhood and executive board retreats. The Chapter also plans to hold a transition retreat after installation.
 - b. [Exec Retreat General Notes](#)
 - c. [Exec Retreat Agenda](#)
19. Goals reviewed/revisited each semester? Yes/ No
 - a. The Executive Board holds an Exec Retreat at the end of every semester to review the semester and outline goals.
20. Chapter and executive council meetings attended by Advisor and/or AAB members Yes/ No
 - a. The Chapter Advisor has attended Chapter Meetings as well as Executive Board meetings.
21. Goals are revisited and updated if necessary Yes/ No
 - a. The goals are established before the semester, then if necessary, updated halfway through the semester.

Athletics

Aryan Thakar
athakar@charlotte.edu

Testimony

The fraternity's intramural efforts focused on developing a more structured approach for organizing practices and improving team collaboration among athletes. Aryan's role was to complete all team rosters, laying the foundation for future competitive success and active participation within the fraternity. This process included creating multiple resources, identifying the most efficient ways to maintain a healthy, competitive lifestyle, and ensuring that all athletes had the tools needed to succeed. The first step was surveying chapter members before the season to gauge interest in different sports. This allowed Aryan to better understand the chapter's sports preferences, making it easier to build balanced teams. Next, athletes were observed to identify leaders with experience in each sport. Finally, Aryan assessed the feasibility of fielding multiple teams for each competition, ensuring that each member had a chance to participate, either on competitive or non-competitive teams.

Looking ahead, Aryan will focus on expanding and improving upon the foundation laid this year. This includes streamlining the process for determining sports preferences and enhancing how teams are selected to better accommodate different skill levels. Experienced athletes will be chosen as team captains for competitive teams, and tryouts will be held 1–2 weeks before the season begins, ensuring teams are well-prepared. Captains will select their team members, while those not chosen can participate on non-competitive teams to continue building skills. For individual sports, Aryan will announce opportunities but will not directly manage those events, allowing greater flexibility for participants. Additionally, Aryan, along with potential fitness trainers, will work to develop personalized health plans for each brother, tailored for cutting, bulking, or general health, promoting overall well-being within the fraternity. These efforts are intended to foster both athletic achievement and personal growth, encouraging a lasting culture of health and competitiveness in the chapter.

Athletics Checklist

1. Print and read Athletics Handbook Yes/ No
 - a. Aryan has printed and read the Athletics Handbook.
 - b. [Athletics Handbook](#)
2. Create written Athletics Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Aryan created a written Athletics Program that includes the Purpose of the Alumni Relations Chairman, Goals of the position, how to execute/strategize Programs, the Structure of the position, and how to transition the next Athletics Chairman.
 - b. [Athletics Program](#)
3. Field a team/individual for every intramural sport Yes/ No

- a. The Chapter needs more men to field a team for every sport. A lot of the sports overlap with each other (I.E. the bigger sports & the smaller sports). The Chapter dedicates its athletes to the sports/teams that A: have the most likely chance to win and B: are the bigger sports at Charlotte.
4. Support the host institution athletic program Yes/ No
 - a. Yes, we host tailgates for the school football team, and afterward, we attend the games to show our support, boosting school spirit and encouraging our team. We also attend games for other sports, like basketball, soccer, and baseball, showing our commitment to supporting the entire athletic community. By actively participating in a variety of sporting events, we help foster a sense of pride and unity on campus, building stronger connections between Pike, the student-athletes, and the broader school community.
5. Create team captains for sports Yes/ No
 - a. Each sport has a designated captain. The captain is responsible for organizing and holding practices. This ensures that the team stays prepared and focused.
6. Create multiple teams (competitive and fun) to accommodate all members who wish to play Yes/ No
 - a. For smaller sports teams that need fewer players but have more members wanting to join, we create an A-team and a B-team. Additional teams are formed if necessary. This allows more members to participate while keeping the teams balanced.
7. Noncompeting brothers support PIKE intramural competitions Yes/ No
 - a. The game dates and times are announced to the members during chapter meetings and are written on the calendar that every member has access to. Members are also reminded the day before the game. This ensures that those not competing can show up and support the players.
8. Club athletes in the membership Yes/ No
 - a. One of the brothers in our chapter is the assistant head coach of the club basketball team. His role helps us build connections with other club players. This also provides opportunities to recruit more club players for our team.
9. Varsity athletes in the membership Yes/ No
 - a. In Fall 2024, the Chapter offered a bid to a member of the Varsity Track Team, and he accepted. The Chapter looks forward to expanding upon this through 365 Recruitment and future Rush Classes. This also provides opportunities to recruit more varsity players for our team.
10. Create a brotherhood wellness program (include exercise and healthy eating) Yes/ No
 - a. [Wellness Program](#)
11. Recognize good sportsmanship Yes/ No
 - a. Yes, good sportsmanship is recognized and valued after every game. All team members make an effort to communicate with each other, which helps build camaraderie and strengthens the team's bond. Additionally, the guys make it a point to tell other players "good game" and remain cordial with opponents, showing respect both on and off the field. This positive attitude fosters mutual respect and a healthy competitive spirit.
12. Recognize athletic achievement Yes/ No
 - a. Yes, athletic achievements are recognized and celebrated by the team. After winning a game, all the brothers get together to hang out, allowing them to enjoy the victory and acknowledge the success they achieved as a team. Additionally, during our "Roses and Thorns" segment at Chapter meetings, the team is often given a rose to highlight their accomplishments, and they are recognized by the entire Chapter for their efforts and success. This tradition reinforces our sense of brotherhood and collective pride in our athletic achievements.

Social

Landon Arrowood

larrowo4@charlotte.edu

Testimony

As the Chapter Social Chairman of Pi Kappa Alpha at The University of North Carolina at Charlotte, Landon oversees all sorority and social relations as well as plans all of the social events carried out by the Fraternity.

Landon was chosen for this position during the spring semester of 2024, so it is now his responsibility to start planning for the upcoming semesters. To start effectively planning for the upcoming semester, Landon started a social committee to help distribute work and also get more creative and safe ideas. The committee consists of 4 main positions, including the party flier maker, decorations overseer, party planner, and sorority relations.

The flier maker is for creating fun and unique flier ideas for party promotions. This team consists of both the party flier maker as well as the Chapter dreamgirls. The decorations overseer is for finding and buying the best decorations for all social events. The committee will come up with a party theme or idea and then buy decorations according to that. The party planner is to help Landon come up with the most unique and fun party ideas. The last committee position, sorority relations, will be dedicated to helping strengthen sorority connections. The person in this position will help Landon with the sorority presentations that they do. These presentations will be in promotion of events such as mixers, philanthropy, parties, etc.

Landon devised two main goals that will boost the fraternity's social reputation throughout the University. First, by extending their reach to sororities for better Greek relations, they will strive to become the most socially preferred fraternity on campus. Having better Greek relations can help the fraternity tremendously. These relations give the fraternity more opportunities, better connections, and an overall better Greek experience.

As social chair, Landon wants to provide the most fun and memorable fraternity experience for members, which leads to the second goal: to produce fun, unique, and safe social events for the chapter. The best way for the social chair to do that is by utilizing the committee efficiently and effectively. When they meet to plan a social event, every committee member will contribute a multitude of ideas in hopes of planning the best event. The committee will typically meet once every other week unless an emergency arises, with the first meeting taking place before rush week at the beginning of the semester and the last meeting taking place before the break following the semester. The first meeting of the semester will be used to review social calendar dates and finalize them as a committee. In comparison, the meeting at the end of the semester will be to plan out the social calendar events for the following semester and see how the events that were planned for the current semester went and what could be done to improve in the future.

Social Checklist

1. Print and read Social Handbook
 - a. Landon printed and read the Social Chairman Handbook.

Yes/ No

- b. [Social Handbook](#)
2. Create written Social Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Landon created this social program with a compilation of ideas and strategies to ensure the success of the fraternity's social events. This program includes the social chairman's purpose, the goals for the position, how to execute/ strategize programs, the structure of the position, as well as how to transition to the next social chairman efficiently and effectively.
 - b. [Social Program](#)
3. Create a contact list of the social chairmen for the other Greek organizations Yes/ No
 - a. [Greek Contact List](#)
4. Have sober event monitors at every social event Yes/ No
 - a. The Chapter Health and Safety Officer selects sober event monitors at every social event. The processes for selecting those monitors are linked in the Health and Safety folder below. As Social Chairman, Landon's responsibility was to fill out the Chapter Event Approval Form and highlight how many sober event monitors are needed for social-related events.
 - b. [Event Approval Form](#)
 - c. [Health and Safety Folder](#)
5. Have a guest list for all attendees at every social event Yes/ No
 - a. Landon worked with the Health and Safety Officer and the External Vice President to form the guest list for every social event. The Chapter utilizes a google form to collect names, and adds those names to the guest list, ensuring a closed guest list for social events.
 - b. [Pike Fall 24 Guest Lists](#)
6. Host events in accordance with the Fraternity *Standards* Yes/ No
 - a. Before every event, Landon met with the Health and Safety Officer to make sure all of Pi Kappa Alpha's standards were met. The Chapter also uses an event approval form for every social event so that everything is planned to the Fraternity standards prior to the event taking place.
7. Meet with Health & Safety Advisor regularly Yes/ No
 - a. The Chapter Health and Safety Advisor has changed or generally not been available multiple times in Chapter History. The Alumni Advisory Board plans to nail down an individual to serve as Chapter Health and Safety Advisor, and Landon plans to meet with the Health and Safety advisor alongside the Chapter Health and Safety Officer on a regular basis moving forward.
8. Schedule social events at least two weeks in advance to ensure proper management Yes/ No
 - a. The Chapter utilizes a Chapter calendar that every member has access to in order to ensure proper management of events, including social events. The events on this calendar are always planned at least two weeks in advance and are further discussed at Chapter meetings at least two weeks in advance. The following is an example image of the Chapter Calendar from November 2024.

 - a. [Social Checklist](#)
11. Complete a post-event assessment (what went right, wrong, etc.) Yes/ No
 - a. The Chapter utilizes a post-event checklist document to assess what went right or wrong after every social event. The following linked folder has post-event assessments from multiple social events.
 - b. [Pike Post- Event Assessments](#)

Community Service

Roberto Nava

lnava@charlotte.edu

Testimony

Since stepping into the role of Community Service Chair at the end of Spring 2024, Roberto has been instrumental in shaping the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte approach to community service. His leadership has not only reinforced the chapter's dedication to giving back but also expanded its impact in ways that reflect both the fraternity's values and its commitment to making a tangible difference in the local community.

One of Roberto's first accomplishments was establishing a key partnership with the University Soup Kitchen, an organization that provides meals to those in need. This collaboration perfectly aligns with the chapter's mission to serve vulnerable populations, and it offers the brothers a direct opportunity to contribute to the well-being of their community. Through regular volunteer shifts at the soup kitchen, the chapter has been able to offer consistent support to those who rely on the service, creating a meaningful, long-term relationship.

In addition to addressing social issues like food insecurity, Roberto also spearheaded an environmental initiative by leading the chapter's adoption of a local creek. This project reflects a broader vision for sustainability and environmental stewardship, providing the brothers with a hands-on way to give back to their community. Under Roberto's leadership, the creek project has become a central feature of the chapter's service portfolio, and its regular clean-up events allow the brothers to witness the tangible results of their efforts, inspiring a greater sense of responsibility for their environment.

To maintain the chapter's momentum, Roberto organized seven distinct community service events for Fall 2024. These events span a variety of causes, from environmental clean-ups to charity fundraisers, allowing the chapter to support a wide range of initiatives and ensuring that brothers can choose service activities that resonate with them. This diversity in events not only helps to engage more brothers but also demonstrates the chapter's adaptability in addressing different community needs. Whether it's volunteering at a food drive, participating in campus-wide charity events, or organizing fundraisers, the chapter's involvement continues to grow in both scale and significance.

A key component of Roberto's success has been his ability to ensure accountability and transparency within the chapter's service commitments. Early in his tenure, Roberto introduced a more advanced Excel tracking system to monitor each brother's progress toward the chapter's community service goals. This system, which is updated regularly, allows Roberto to track each member's service hours and ensure that every brother is meeting the minimum requirement of 10 hours per semester. The tracking system not only promotes transparency but also fosters a sense of accountability, ensuring that the chapter remains focused on its service objectives. Brothers can easily check their progress, and the system provides an easy way for Roberto to report updates at chapter meetings.

To further encourage participation, Roberto has established a recognition system to honor brothers who go above and beyond in their community service contributions. Brothers who accumulate the most man-hours, make significant donations, or take on leadership roles in organizing events will be formally recognized through awards.

and accolades. This system of rewards adds a layer of motivation, reinforcing the chapter's culture of service and inspiring more brothers to get involved. By celebrating the efforts of individual brothers, Roberto is creating a positive feedback loop that both encourages continued participation and cultivates a sense of pride in the chapter's accomplishments.

Recognizing the power of collaboration, Roberto has also expanded the chapter's service efforts by fostering relationships with other Greek organizations on campus. In particular, he has worked with a sorority to organize joint service events, an initiative that not only amplifies the chapter's impact but also strengthens bonds within the broader Greek community. These collaborative events provide a platform for different organizations to come together in support of shared causes, building camaraderie and unity while increasing the reach of their collective efforts. Roberto plans to host more of these joint events in the future, further integrating the chapter into the larger network of campus organizations that are dedicated to making a difference.

While service events and partnerships are crucial, Roberto understands that long-term success requires a sustainable framework. To this end, he has created a formal **Community Service Program** that will serve as a roadmap for future leaders. This program outlines the chapter's purpose, goals, execution strategy, and structure, ensuring that the chapter's service initiatives continue to grow and thrive long after its tenure as chair. The written plan is not only a reflection of Roberto's commitment to service but also a strategic move to guarantee the chapter's long-term impact. By providing a clear structure for future community service chairs, Roberto is laying the groundwork for continued success and expansion.

A key aspect of the program is its focus on building lasting relationships with local organizations. Roberto is currently developing a comprehensive contact list of charities, nonprofits, and service groups in the area. This list will ensure that the chapter has an ongoing pipeline of service opportunities and can maintain long-term partnerships with local organizations. By cultivating these relationships, the chapter will have the ability to offer consistent support to these groups, whether through volunteer hours, donations, or collaborative events. This network of partnerships will allow the chapter to continue making meaningful contributions to the community while also strengthening its ties to local organizations.

Looking toward the future, Roberto is dedicated to ensuring that the chapter's community service efforts remain dynamic, impactful, and sustainable. He is actively planning the transition of his role to future leaders by preparing detailed documentation and providing mentorship to ensure a smooth handover. Roberto's efforts in creating a transition plan demonstrate his dedication to building a legacy of service within the chapter, one that will continue to thrive even after his term as chair comes to an end.

Overall, Roberto's leadership has brought a renewed sense of purpose to the Pi Kappa Alpha Provisional Chapter's community service initiatives. His ability to build partnerships, create structured programs, and inspire his brothers has elevated the chapter's role as a positive force within the community. Through his vision and commitment, Roberto has not only strengthened the chapter's impact today but also ensured that its service efforts will continue to flourish for years to come. He is proud of the work they have accomplished so far and excited for the future, confident that the chapter's dedication to service will remain a central pillar of its identity.

Community Service Checklist

1. Print and read Community Service Handbook Yes/ No
 - a. Roberto printed and read the Community Service Handbook
 - b. [Community Service Handbook](#)

2. Create a written Community Service Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Roberto created a written community service program, complete with purpose, goals, execution, structure, and transition.
 - b. [Community Service Program](#)
3. Create an Excel sheet for recording service hours and dollars donated (individuals and entire chapter) Yes/ No
 - a. [Service Hour Log Sheet](#)
4. Create chapter goal for service hours and philanthropy dollars donated Yes/ No
 - a. Roberto created a goal of community service hours based on the focus on winning the award for most community service hours as a fraternity. He changes this goal each semester based on always improving as a fraternity.
5. Establish a minimum hours of service expectation for each member Yes/ No
 - a. Roberto and the External Vice President have set an expectation of a minimum of 10 hours for every brother each semester. This expectation is additionally set in the Chapter Bylaws, and is a requirement of all members.
 - b. [Chapter Bylaws](#)
6. Participate in other fraternity and sorority service/philanthropy events Yes/ No
 - a. Roberto communicates with Sororities and other Fraternities to arrange for multiple members to volunteer in their service/philanthropy events. He also advertises during his regular Chapter updates what events are going on, and if possible based on when he is notified of the events by other organizations as he asks them, ensures that those events are added to the Chapter Calendar and/or the Flare application.
7. Create a contact list for local charities and service organizations Yes/ No
 - a. Roberto has created a Google sheet with local charities and service organizations which will continue to grow.
 - b. [Contact list for local charities and service organizations](#)
8. Complete event summaries after service/philanthropy events Yes/ No
 - a. The Chapter does not complete event summaries after service/philanthropy events. Roberto does submit a form to UNC Charlotte's IFC of a monthly summary of the Chapter's service hours. Additionally, he is working on a way to begin implementing event summaries for the future through meeting with his committee and ensuring that the forms are properly organized and created.
9. Establish awards for community service (man hours, donations, etc) Yes/ No
 - a. The Chapter does not give awards for man hours, donations, etc. However, it does utilize a point system created and maintained by the Sergeant at Arms that has monthly and yearly awards which members can gain points from number of community service hours, number of donations, etc. Additionally, Roberto is having discussions with the Chapter to see if specific awards for community service can or should be factored in, and what that would look like.
 - b. [Charlotte Point System](#)
10. Host at least one community service project each academic term Yes/ No

- a. The Chapter organizes at least one community service project each term by collaborating with local organizations, like the University Soup Kitchen, and planning the event through the Community Service Chair. Members are assigned roles and tracked for participation to ensure smooth execution and impact.
11. Host at least one philanthropy project each academic term Yes/ No
- a. The Chapter organizes at least one philanthropy project each term by collaborating with local organizations, such as Invisible Paws, and planning through the Philanthropy Chair. Members are asked to volunteer regularly at events to ensure the maximum amount of money can be raised for philanthropy. Typically, each semester, the Chapter hosts a full week of events, or a few days worth of events, as a highlight point in the semester, as well as individual days scattered throughout the semester to maximize contributions to organizations.

Public Relations

Isaiah Grayson

igrayson@charlotte.edu

Testimony

As the Public Relations Chairman of Pi Kappa Alpha at UNC Charlotte, Isaiah oversees all outward social media appearances, posts, creation of materials, and overall image through multiple media platforms for the Fraternity. He was chosen for this position in the Fall of 2024 as it has been a rotating position with a lack of clearly defined responsibilities, with the goal of setting up successors for the future. It is his responsibility to create the framework and formula for success to pass on to the next Public Relations Chairman.

In order to be successful, Isaiah formed a Public Relations Committee. Looking to build on the momentum of younger members and experience of older members, he incorporates members across the Chapter in the committee to see the most success and garner the highest amount of ideas. The idea generation that comes from the members aims to not only make content relatable and intentional, but ensure that it reflects the values that the Chapter wants to uphold. Isaiah delegates responsibilities to the committee as he sees fit, with some members helping create different publications to be posted to Instagram, others helping create designs for Chapter T-Shirts, and the rest of the members simply providing feedback and a sounding board of ideas.

Isaiah came into the Public Relations role with three key goals: increase the number of followers on the social media platforms, post more often to show the Chapter is not only an active organization but one that people want to be a part of, and to showcase the work the Chapter does. These goals have been accomplished through a spike of an increase in viewership of 328% from September 2024 to October 2024. Isaiah's focus on not only more content but intentional content showcases the Chapter's successes, abilities, and overall high moral character. Additionally, it leads to higher retention of followers and displays the active way the Chapter is involved on campus and in the community.

For the future, Isaiah wants to ensure that the next Public Relations Chair can maintain the momentum. The Chapter has seen increasing success through Instagram, but will need to be vigilant and intentional about getting involved more through Facebook, LinkedIn, the Chapter website, and all other social media platforms available for its success. The Chapter has made great strides and improvements, now it is about carrying on the momentum to be successful.

Public Relations Checklists

1. Print and read Public Relations Handbook Yes/ No
 - a. Isaiah has printed and read the Public Relations Handbook
 - b. [Public Relations Handbook](#)
2. Create written Public Relations Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Isaiah has written a complete Public Relations Program, complete with purpose, goals, execution, structure, and transition.
 - b. [Public Relations Program](#)

3. Chapter website created and updated regularly via myPIKE Yes/ No
 - a. There is a chapter website updated via myPIKE
 - b. <https://charlotte.pikes.org/>
4. Thank you notes after events Yes/ No
 - a. The Chapter not only writes hand-written notes to individuals and organizations that it has partnered with, but often takes time to deliver baskets of different items or other things to individuals or organizations to show its appreciation after events.
5. Recognize sorority founders' days Yes/ No
 - a. The Provisional Chapter recognizes sorority founders' days through the Chapter Instagram, as well as delivering items to the sorority house when possible. Some different things that the Chapter has given in the past include flowers and cookies.
6. Submit regular press releases to campus and community newspapers Yes/ No
 - a. The Chapter does not currently release press releases to campus and community newspapers. Isaiah plans to change that for the future by utilizing the recently compiled contact list for the campus newspaper and other partners in the community. For the future, he will pass down the list and update it to continue to create regular releases of information.
7. Contact list for the campus newspaper, community paper, radio station, local T.V. news, etc Yes/ No
 - a. Isaiah created a contact list for local and campus organizations that is regularly updated as new partnership opportunities are identified.
 - b. [Public Relations Partnership Opportunities](#)
8. Parent involvement (parent newsletter, letter to parents of new members, parent's day, etc) Yes/ No
 - a. The Chapter does not currently have a parent newsletter or letter to parents of new members. The Internal Cabinet planned a parents day in the Fall 2024 semester. Moving forward, Isaiah plans on creating a parents newsletter on behalf of the Chapter to be sent out on a quarterly basis.
9. Identify faculty, family members, coaches, local business men, etc. for honorary initiations Yes/ No
 - a. While the Chapter has not identified any members of the community to honorary initiate into the Chapter we are working on obtaining a list of past honorary initiates from alumni to keep them updated with the chapter.

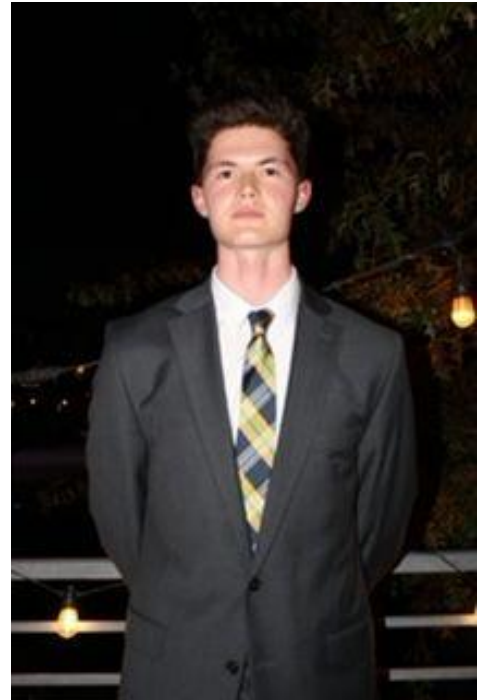

Campus Involvement

James Hobson

jhobson9@charlotte.edu

Testimony

As Campus Involvement Chairman of the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte, James has gotten one-hundred percent of the Chapter involved in another student organization on UNC Charlotte's campus. The Chapter has also achieved over eighty percent attendance at major on-campus events such as the career fair, international festival, and student org showcase. Additionally, the Chapter has had at least fifty percent attendance at numerous on-campus Sorority events and non-greek org events. Using James' connections with leaders of organizations on campus, he was able to ensure that all members of the Chapter were in at least one other student organization. As for the attendance James utilized a google sheet to track who was and who wasn't present at various events and if he couldn't make it then he would appoint this task to someone that was. James has multiple goals for the future of this position. He also has established a committee and has all campus involvement events scheduled/budgeted at least a semester in advance. Second, James wants to increase the attendance for on-campus events to ninety percent. Additionally, he has implemented more ways for Pike to get its name out on campus. James has done this by having the Chapter participate in Greek Letter Days, where every Monday all Greek Organizations wear their letters to class and anywhere else on campus that day. James also wants to reach out to more alumni and other guest speakers to talk about what being engaged on campus has done for them. Finally, James wants to start another club on campus. He will continue to build on other positions by assisting in the planning and execution of any on-campus events from other chairman and officers. Ultimately, it is James mission as Campus Involvement Chairman to ensure that members of the Chapter develop leadership and social skills by being a part of other campus organizations.

Campus Involvement Checklist

1. Print and Campus Involvement Handbook Yes/ No
 - a. James has printed and read the Campus Involvement Handbook
 - b. [Campus Involvement Handbook](#)
2. Create written Campus Involvement Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. James has written a complete Campus Involvement Program, including the purpose of the position, goals for the position, how James has executed the position, the structure of the position, and how to transition in the next Campus Involvement Chairman.
 - b. [Campus Involvement Program](#)
3. Create a minimum level of involvement expectation for members Yes/ No

- a. James, in collaboration with the Chapter, created an expectation that all members are involved in at least one other organization outside of the Chapter. The Chapter bylaws state that every member must join at least one other organization. Additionally, the Chapter is responsible for fulfilling the University's Gold Standard requirements, which require at least 50% of the Chapter to be involved in at least one other organization.
 - b. [Provisional Chapter Bylaws](#)
 - c. [OFSL Gold Standard Checklist](#)
4. Identify the top organizations on campus Yes/ No
 - a. UNC Charlotte's top organizations include the Student Activities Fees Commission (SAFC), Student Government Association (SGA), Club Sports Teams, Niner Media, Campus Activities Board, and Graduate and Professional Student Government.
5. Create chapter goal for % of membership involved in other student organizations Yes/ No
 - a. The Chapter has set a goal in congruence with its bylaws of 100% of membership being involved in another student organization.
 - b. [Provisional Chapter Bylaws](#)
6. Make a list of the organizations the members are in Yes/ No
 - a. [Pike Campus Involvement](#)
7. Weekly opportunities to get involved on campus presented at each meeting Yes/ No
 - a. James presents all campus involvement opportunities that have been brought to his attention each week during chapter meetings.
8. Create a plan for getting members in the top organizations and positions on campus Yes/ No
 - a. James explains through the Campus Involvement Program the Chapter plan for getting members in the top organizations and positions on campus.
 - b. [Campus Involvement Program](#)
9. Create a contact list of the main contacts for various student organizations Yes/ No
 - a. James utilized the UNC Charlotte made registrar for student organizations, Niner Engage, to locate the contacts for various student organizations across campus.
 - b. <https://ninerengage.charlotte.edu/organizations>
10. Get 90% of members in other campus organizations Yes/ No
 - a. The Chapters bylaws require that 100% of the membership gets involved in other campus organizations.
 - b. [Provisional Chapter Bylaws](#)
11. Are any chapter members IFC officers? Yes/ No
 - a. Per Charlotte's Interfraternity Council Bylaws, Colonies/Provisional Chapters are ineligible to be IFC Officers.
 - b. [UNCC IFC Bylaws](#)
12. Are any chapter members in student government? Yes/ No
 - a. Multiple members are involved in Student Government, and have been formerly involved in Student Government, serving in various positions. Currently, Isaiah Grayson serves as Student Body President,

Matthew De La Rosa serves as Safety and Security Liaison in the Executive Branch, and Ben Chlopek serves as Legislative Clerk in the Student Senate, all officers of the Student Government. Formerly, the Chapter had multiple members serve in the Student Senate.

13. Are any chapter members freshman orientation leaders? Yes/ **No**
- a. No, none of the current members serve as Freshman Orientation Leaders. James has advertised and discussed the importance and value of getting involved as an Orientation Counselor at UNC Charlotte multiple times before the deadline passed, and the Chapter plans to get members involved in becoming Orientation Leaders moving forward.

Special Events

Bryson Poe

bpoe2@charlotte.edu

Testimony

Bryson Poe is the special events chair for the Charlotte Pi Kappa Alpha. Bryson plans and runs the tailgates that are hosted at every home game. Bryson also plans to reserve and run the brotherhood getaways, beach weekend and mountain weekend. This includes the searching and booking of houses and the events during these getaways.

To run and keep the home tailgates running smooth and safe Bryson first in the week before Bryson goes to the store and buys all the food and other supplies that the chapter would need to feed and supply the tailgate. Bryson also assigns people to help out with the loading and unloading of our supplies from the house, to make sure the chapter gets everything Bryson also makes a list so the chapter doesn't forget everything this includes: the food and gas needed for the grill, the tents to cover everything, the die table, our pong tables, and the chapters speakers for our music. After all that Bryson helps guide and plan the setup location and the way everything is put up so that it is in an orderly fashion. Then after, Bryson guides the loading and unloading of the stuff from the

tailgate to the house. The chapter has recently upgraded our tent for the tailgates, which has improved the chapter's presence at these events.

For the mountain weekend and beach weekend it's about the same, Bryson first chose a location that Bryson gets the chapter to vote on for their favorite then with that info Bryson looks for suitable housing options and get the chapter to vote on that as well. Then with this info Bryson books the houses and plan day events that the chapter can do as a chapter as well as the formal which usually includes a catered dinner that Bryson sources from local restaurants. When the chapter first gets to the location Bryson assigns rooms and sleeping arrangements as well as a quality check on the house and move furniture and other items to make it a more open and safer area and to fit the chapters formal dinner and events the chapter hosts at the location. Then at the end of the trip Bryson gets people to help with the cleaning and make sure the house is better off than how the chapter left it with another quality check.

Bryson's goals for this next year on the events that Bryson plans are: better planning, more options for things to do, more input from the chapter and involvement, and to improve the equipment at the chapters tailgates to improve the experience. Bryson plans to do this by having earlier deadlines for planning and having a more get it done attitude about the overall planning and to lower the budget for these events. For more involvement from the chapter Bryson plans to hold more things at a vote to get them more involved and also so Bryson can get their input on what they are expecting. For the equipment, Bryson plans to make the Tailgates a better experience and show the importance of them to try and get more of a budget to them and get help with funding them more.

Special Events Checklist

1. Print and read Special Events Handbook Yes/ No
 - a. Bryson has printed and read his handbook
 - b. [Special Events Handbook](#)

2. Create written Special Events Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Bryson has created a Special Events Program
 - b. [Special Events Program](#)

3. Participate in Greek Week, Homecoming, and any other major campus events Yes/ No
 - a. The Chapter participates in Greek Week, Homecoming, and all other major campus events it can. At UNC Charlotte, the Chapter had members involved in the Homecoming Court called the Niner 9, participated and won Airband, a dance competition held annually during Greek Week, and participated in all of Greek Week, including: Greek Games, games during the weekend in which points are earned for the week and the Chapter competes against other Chapters, the Hygiene drive hosted by the Office of Fraternity and Sorority Life, a competition to raise the most amount of items to donate for Hygiene during the week, which the Chapter won amongst fraternities, and has planned to partner with Kappa Alpha Theta during Homecoming 2024 on a Homecoming Tailgate

4. Host a parents/family day Yes/ No
 - a. The Chapter is planning a parents/ family event for November 16th.
 - b. [Special Events Program](#)
 - c. [Google Calendar](#)

5. Host banquets and other events with alumni Yes/ No
 - a. The Chapter has hosted multiple banquets/other events with alumni, including successful alumni tailgates the past couple of semesters, a Kappa Kappa Chapter Founders Day event at Vaulted Oak Brewing, an alumni-owned brewery, and networking opportunities between the Chapter and Alumni at Chapter meetings.

Membership Development Vice President

Sam Abdelrahman

sabdelra@charlotte.edu

Testimony

As the Membership Development Vice President, Sam Abdelrahman has worked tirelessly to perfect a membership development system that the Chapter has previously lacked. Sam was appointed by the Chapter President Cameron Harper, due to his belief in Sam's ideals and drive to make the men of the Chapter not only the best versions of themselves but the best fraternity men on campus and the best Pikes they can be. Sam has two predecessors, neither of whom has accomplished much outside of basic and mediocre new member education. However, Sam read his handbook and talked to other Chapter members about development and what they wanted to see. He took their suggestions and advice from his handbook and reworked the entire development process. Sam replaced the entire previous cabinet and was able to combine the Brother, Fraternity, and Community Leader Educator roles, given that most of the Chapter were all of the same class. He focused on creating a Brother Leader Educator program and revising the New Member Orientation process. He developed his program to incorporate and focus on five specific goals, each of these goals embodying a specific characteristic of SLAG, ensuring the new and active members are molded into the ideal PIKES.

The first goal is scholarship, ensuring that the members maintain A's and B's without falling behind in their classes. The second is Leadership, which entails mandating that every member join a different student organization outside of Pi Kappa Alpha. The third goal is athletics, ensuring that the members are consistently engaging in weightlifting and cardio workouts when possible. The fourth goal is gentlemanship, encouraging consistent sorority relations. The fifth and final goal is brotherly bonding and integration within the Chapter.

As previously stated, one of the first things Sam did was replace his entire cabinet due to their lack of overall leadership and vocation. He also combined Brother, Fraternity, and Community Leader Educator after talks with the Executive Board on how to better develop the men in the cabinet. The logic behind this decision was that the Chapter consisted mostly of sophomores and juniors, and class sessions with just members in their respective phases were unproductive. This new role was called Brother Leader Educator. The next part of Sam's revamp was to make the New Member Orientation process more meaningful and allow for the new members to build bonds with current members. By closely monitoring this he was able to ensure that the content thoroughly hit his goals. Sam led the cabinet in creating positions for the New Member class that corresponded with positions in the active Chapter- this included the implementation of New Member chair positions. These roles essentially served as mock chair positions and allowed for shadowing of older members, ensuring that new members were able to interact and better connect with the active membership, while also hitting every other goal of scholarship, leadership and involvement, athletics, and sorority relations to properly integrate members into the Chapter.

Sam's goals for the future involved ensuring that the five previously stated goals continued to be met by encouraging members to work as a unit and rely on each other during times of hardship. He wanted to make sure that unsatisfactory grades were improved upon, and that every member is in outstanding academic standing, leaving

no room for mediocrity. Sam plans to make sure that the membership is working hard in their other organizations, obtaining leadership goals and standing out as true Pikes, putting in the work, and taking the lead, even when they are in different settings. He plans to ensure that the athleticism and goals that they have been working on during their time are not forgotten and that they continue to work on their health and fitness, regularly exercising and setting personal goals for themselves to grow into the outstanding men he knows that they can be. Sam has worked incredibly hard to build the current building blocks of the Chapter's sorority relations; in 2024, the new members have been building some of the best relationships, with the class being closest with the new members of Alpha Chi Omega, Kappa Delta, and Kappa Alpha Theta. He plans on working to continue building these relationships with other sororities on campus as well as solidifying the ones that are currently already strong. Sam has high hopes for the bonding of the membership, as they have all thus far shown incredible improvement in inner communication and teamwork. He will continue to ensure that they always rely on each other and keep these bonds for the rest of their lives.

Sam plans to continue to build on the position by educating the membership on lifelong skills, imparting knowledge, and bringing in guest speakers who are experts in their fields. He wants to teach them important financial management, real estate, mechanical, and social skills that will aid and grow men into true PIKEs, ensuring that they are able to be the absolute best men that they can be. Sam feels as though the Chapter is in a very good position with its sorority relations and has built a solid foundation that it can use as stepping stones to ensure that they build these important relationships. As stated previously, Alpha Chi Omega, Kappa Delta, and Kappa Alpha Theta are currently the Chapter's closest connections. Sam plans to use the Chapter's increasing social status and gentlemanlike reputation to form relationships with more and more sororities over time. Overall, Sam is incredibly proud of his contributions to PIKE's membership development.

Checklist

1. Print and read the Membership Development VP Handbook Yes/ No
 - a. Sam printed and read the Membership Development Vice President Handbook.
 - b. [MDVP Handbook](#)
2. Create a written Membership Development Program (complete with Purpose, Goals, Execution/Strategy, Structure, and Transition) Yes/ No
 - a. Sam created a complete Membership Development Vice President Program, complete with the purpose of the position, goals, execution, structure, and how to transition the role.
 - b. [Membership Development Vice President Program](#)
3. Form a structured education cabinet to manage the curriculum for the various developmental levels of the chapters/Provisional Chapter's membership Yes/ No
 - a. The Membership Development Cabinet consists of a New Member Educator & Brother Leader Educator. The new member educator worked to meet with the new members and present to them in a slideshow manner, the history of Pi Kappa Alpha. The Brother Leader educator met with the entire chapter to educate them upon life skills such as personal finance management.
4. Meet with Alumni Education Advisor on a regular basis Yes/ No
 - a. The Chapter has not had a consistent Education Advisor and currently does not have one. The Chapter President is working with the AAB and the International Fraternity to put an Education Advisor on the AAB.
5. Educators hold education meetings for members in their respective developmental phase Yes/ No

- a. Educators hold education meetings for members in their respective developmental phases. The New Member Educator holds weekly meetings with all new members during New Member Education. The Brother Leader Educator holds bi-weekly meetings prior to regularly scheduled Chapter Meetings to discuss various topics in members' respective developmental phases.
6. Develop and organize an educational curriculum calendar/schedule of events Yes/No
 - a. [New Member Education Calendar](#)
7. Hold member development cabinet meetings once every week Yes/ No
 - a. The Cabinet meets weekly to discuss future educational meetings, cabinet operations, membership development content, and any other topics that they need to discuss.
8. Speakers/events planned for personal development Yes/ No
 - a. The Alumni Relations Chairman, and Chapter Gold Standard Chairman, organize speakers and create events to fit into the Gold Standard requirements that every UNC Charlotte Chapter is required to complete annually. Some highlight speakers that the Chapter has had are Kappa Kappa Alums Paul Calarco and Joe Showfety, members from headquarters including Grayson Mccrosky, Gabe Gallo, Scott Brewer, Isaac Sires, Trevor Garrette, Brady Fentress, and others, and members of UNC Charlotte's community including from the Office of Student Accountability and Conflict Resolution Amanda Oller.
9. Ensure each educator in the member development team achieves 80% attendance at education meetings Yes/No
 - a. The New and Brother Leader Eductors take attendance at the beginning of each educational session and each event achieves a minimum of 80% attendance.
10. Ensure that the chapter is sending at least 15% of membership to PIKE *University* events (Leadership Summits, Chapter Executives Conference, Academy/Convention) on a yearly basis Yes/ No
 - a. The Chapter has sent a total of 28 unique members to PIKE U over the last 2 years, 16 total Members both years equaling roughly 60% of the Chapter.
11. Ensure that 5 or more members achieve PIKE *University* Garnet Certification each academic year Yes/No
 - a. The Chapter currently has four Garnet Certified members. Matthew Corley, Jacob Welsh, Isaiah Grayson and Dylan Ilg. The Chapter is working on increasing PIKE U attendance by sending new and active members to Leadership Summits.
12. Ensure that 5 or more members achieve PIKE *University* Gold Certification each academic year Yes/No
 - a. The Chapter currently has one Gold Certified member, Matthew Corley. Matthew attended his first PIKE U event in January of 2022 at the Chapter Executive Conference and attend his fifth at the 2024 International Convention in Oklahoma City. Additionally, other members are on track to achieve PIKE *University* Gold Certification moving forward. The Chapter is working on increasing PIKE U attendance by sending new and active members to Leadership Summits.
13. Goals reviewed/revisited each semester? Yes/No
 - a. Sam, being new to the position, created and formulated new comprehensive goals. Moving forward, he plans to continue to update goals as he learns how the role can change to better inform and lead within the Chapter. All content has been reviewed and revisited by Sam to update to what the Chapter needs.

New Member Educator

Jacob Illingworth

jillingw@charlotte.edu

Testimony

As the New Member Educator, Jacob Illingworth has been dedicated to improving the Provisional Chapter's new member education system. With the help of brothers Ben Chlopek, Matthew Corley, and MDVP Sam Abdelrahman, the new member education program has been completely restructured, making effective use of the 30 day new member education process. This involves teaching the new members about our history from information found in the Garnet and Gold, helping the new members get involved on and off campus, and assigning the new members mentors.

It is essential that new members know the history of Pi Kappa Alpha. Matthew and Jacob have structured education slides to present weekly to new members at structured new member education meetings. The new members are later given quizzes on the information to determine their knowledge on the subjects. The first two weeks of education consist of Pi Kappa Alpha history such as The Preamble, Ode to a Pledge, the 6 founders and 4 junior founders, PIKE symbols, and the true PIKE experience. The next 2 weeks focus more on teaching the new members about Greek Life at UNC Charlotte and what it involves. The new members are also given leadership roles within their class which includes a class president, treasurer, scholarship chair, and athletic chair, to teach about how roles work in the Chapter and provide them with structured responsibilities to help with accountability, building experience to allow for integration into the Chapter's future executive boards.

Another portion of Jacob and Sam's new member process focuses on integrating the new members into the campus community and greek life. Jacob works with Brother Leader Educator Ben Chlopek to administer and monitor this part of new member education. The new members are put into group chats with sorority new member classes in order to build sorority relations with the future of Panhellenic sororities at UNC Charlotte. Through doing this, the new members have organized events such as joint study sessions and small social events with a few different sororities. Jacob also requires that the new members be involved in one other organization on campus, just as the rest of the Chapter. Outside of campus, Jacob has also worked to involve new members in community service events with the entire brotherhood.

Overall, Jacob has built a more efficient new member process with the contributions from Sam, Matthew, and Ben. This process ensures that new members are prepared to become future leaders in Pi Kappa Alpha and ensure their success outside of and inside the fraternity.

New Member Educator Checklist

1. Print and read the New Member Educator Handbook Yes/ No
 - a. Jacob has printed and read the new member educator handbook
 - b. [New Member Educator Handbook](#)
2. Create written New Member Educator Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. [New Member Educator Program](#)
3. Is each new member given a *Garnet & Gold* Manual? Yes/ No
 - a. Yes, each new member is given a Garnet and Gold. The New Member Educator, Jacob Illingworth, has gone through the Garnet and Gold with the new members and had them memorize the Preamble, Ode to a Pledge, the symbols of Pi Kappa Alpha, and the founders and junior founders.
4. Each new member given *True PIKE Experience* Member Guidebook Yes/ No
 - a. Yes, each new member was sent the True PIKE Experience Member Guidebook.
5. Each new member receives a provisional chapter pin and goes through the pinning ceremony Yes/ No
 - a. The new members are pinned at a chapter meeting which will be formal attire and the pinning ceremony ritual will be read off before the pins are put onto the new members.
6. Each new member signs the *Standards* and *Statement of Position on Hazing* Yes/ No
 - a. All new members have signed standards and the Statement of Position on hazing. The membership development cabinet directed new members through this process on myPIKE during New Member chapter.
7. Hold weekly new member orientation meetings in congruence with the 30-day Orientation Plan Yes/ No
 - a. Yes, weekly new member orientation meetings are held by Jacob Illingworth.
 - b. [New Member Education Calendar](#)
8. Have one member or guest responsible for speaking at each weekly new member orientation meeting Yes/ No
 - a. Each orientation (chapter meeting) includes one or more of the MDVP cabinet speaking to the new members. EVP Kunj Patel and Health and Safety Ryan Zimmerman have also been responsible for speaking to new members about social etiquette and health and safety guidelines. Alumni board member Paul Calarco came to speak to the new members during chapter as well.
9. Develop a mentor program for new members joining the chapter Yes/ No
 - a. [Mentor Program](#)
10. Meet with the Alumni Education Advisor at the beginning of the semester/quarter Yes/ No
 - a. Jacob Illingworth did not meet with the Alumni Education advisor
11. Have a different brother assigned to lead a discussion each week Yes/ No
 - a. Other than the members of the MDVP cabinet, the only brother who has led a discussion with the new members is Health and Safety, Ryan Zimmerman. Ryan's discussion talked about health and safety measures and sober monitor/driver responsibilities at social events.

12. Develop a calendar for the 4-week new member education process Yes/ No
 - a. [New Member Education Calendar](#)

13. Comprehensive New Member Handbook for new member education program Yes/ No
 - a. The Education Cabinet went through a comprehensive rebuild process to ensure the best possible program, and utilizes the Garnet and Gold as well as slides to remain consistent and look to integrate members into the active Chapter. Rather than have a handbook, the New Members are recommended to utilize the Garnet and Gold as a comprehensive and thorough handbook and guide to Pi Kappa Alpha, as well as discuss and communicate with their Chapter mentors.

14. Ensure at least 15% of all new members and recently initiated members attend their 1st PIKE *University* Leadership Summit Yes/ No
 - a. Since 2022 new members have not been sent to any leadership submits, in the future this is subject to change. In the past the reason for this was mainly financial and the chapter has been setting money aside for initiation and the chartering banquet.

Brother Leader Educator

Ben Chlopek

bchlopek@charlotte.edu

Testimony

Ben Chlopek is currently the Brother Leader Educator for Pi Kappa Alpha at the University of North Carolina at Charlotte. In this role, Ben is responsible for overseeing the holistic development of brothers through a structured educational program that emphasizes leadership, fraternity values, and community engagement.

One of Ben's main initiatives is organizing weekly educational sessions that focus on personal and professional development. These sessions cover a range of topics, including leadership skills, fraternity governance, and community involvement, and are designed to engage brothers through discussions, workshops, and case studies. The goal of these events is to foster a continuous learning environment that helps members become effective leaders both within the fraternity and in their broader communities.

In addition to the weekly sessions, Ben organizes monthly speaker events that bring in alumni and industry professionals to share their experiences and insights. These events provide valuable learning opportunities for the brothers, offering real-world examples of how the core values of Pi Kappa Alpha can be applied in professional and personal settings. The speakers cover a range of topics, from leadership challenges to the importance of community service, ensuring that the brothers are exposed to a variety of perspectives.

Ben also focuses on creating memorable learning experiences by incorporating team-building activities and fraternity traditions into the educational program. For example, he plans retreats and interactive workshops to strengthen the bonds between brothers while promoting leadership development. These events help create a sense of unity and collaboration, which is essential for the chapter's long-term success.

A key aspect of Ben's strategy is ensuring that the program remains sustainable and impactful over time. He works closely with chapter leaders and alumni to gather feedback and document best practices, ensuring that future Brother Leader Educators can build on his efforts. Ben has also created a comprehensive Google Drive with lesson plans, event summaries, and feedback reports to ensure a seamless transition of responsibilities.

Ben's primary goal is to create a program that not only equips brothers with leadership skills but also fosters a deep connection to the fraternity's values. By organizing a balanced mix of educational events and team-building activities, he aims to maintain high levels of engagement and participation, ensuring that each member benefits from the program. Looking ahead, Ben envisions a future where the Brother Leader Educator Program becomes an integral part of the chapter's culture. He hopes that the traditions and values instilled through the program will continue to shape the leadership and personal growth of brothers for years to come. By the end of his tenure, Ben plans to leave behind a well-documented and structured program that will ensure the ongoing development of Pi Kappa Alpha's future leaders.

Overall, Ben's experience as Brother Leader Educator has demonstrated the importance of combining structured educational events with meaningful team-building activities. By fostering an environment of continuous learning and brotherhood, Ben has helped create a strong foundation for the chapter's future success.

Brother Leader Educator Checklist

1. Read the Brother Leader Educator Handbook Yes/ No
 - a. Ben has printed and read the Brother Leader Educator Handbook
2. Create written Brother Leader Educator Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Ben has created a Brother Leader Educator Program
 - b. [Brother Leader Educator Program](#)
3. Develop a structured syllabus/calendar for Brother Leader education meetings Yes/No
 - a. Ben has developed a structured calendar for Brother Leader Education Meetings
 - b. [Brother Leader Education Meetings](#)
4. Meet with the Alumni Education Advisor at the beginning of the semester/quarter Yes/ No
 - a. Ben has not met with the Alumni Education Advisor at the beginning of the semester due to recently filling in this position. However, he has plans on doing so in the future.
5. Hold education meetings for members in the Brother Leader developmental phase Yes/ No
6. Develop and organize an educational curriculum calendar/schedule of events for Yes/No
 - a. Ben has resented it to the brother prior to the beginning of each semester/quarter
 - b. [Brother Leader Education Calendar](#)
7. Achieve 80% attendance at each Brother Leader education meeting Yes/ No
 - a. Ben has worked with Sergeant at Arms (Nassim) to ensure that at least 80% of the brotherhood at each educational meeting
8. Have evaluation forms for members to rate the program at the end of each semester/quarter Yes/ No
 - a. Ben has created a Google Form to collect feedback once we end the semester
 - b. [Evaluation Form](#)
9. Ensure at least 15% of Brother Leaders attend their 2nd PIKE *University* Leadership Summit Yes/ No
 - a. Of 28 active members, 15% have attended their 2nd PikeU. Those members include: Matthew Corley, Isaiah Grayson, Dylan Ilg, Dodge Belanger. Additionally, Alumni Jacob Welsh has attended at least 2 Pike University Leadership Summits.
10. Read the Chapter Events/Speakers Coordinator Handbook Yes/ No
 - a. Ben has read the Chapter Events/Speakers Coordinator Handbook
11. Create written Chapter Events/Speakers Coordinator Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Ben has wrote an Events/Speakers coordinator Program
 - b. [Chapter Events/Speakers Coordinator Program](#)
12. Create a goal for number of personal development educational events Yes/ No
 - a. Ben has created a goal for number of personal development educational events
 - b. The goal is 6 educational events (the number we've scheduled this semester)
13. Begin monthly speakers for the chapter Yes/No

- a. Ben has worked with Baran (Alumni Relations) to get monthly speakers for the chapter
- b. [Brother Leader Education Calendar](#)

Recruitment Chairman

Coulson Dunning

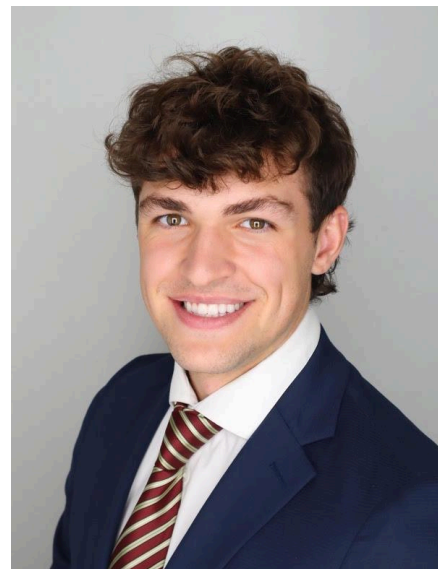

cdunnin4@charlotte.edu

Testimony

As the recruitment chair for Pi Kappa Alpha (PIKE), Coulson Dunning set the bar high from the outset, establishing a goal to recruit 20 solid men who embody the core values of the fraternity. Through his leadership, Coulson successfully reached this goal, placing PIKE third out of the 13 IFC chapters at his school in recruitment rankings. His achievement wasn't a solitary effort; it was the result of strategic planning, effective delegation, and community engagement.

Coulson took the initiative to create a recruitment committee, appointing three rush chairs to assist with leadership and ensure every aspect of recruitment was covered. This team approach allowed him to oversee the planning and execution of monthly recruitment events, including two standout summer events that each attracted over 25 potential new members (PNMs).

His dedication extended beyond formal events, as Coulson tabled at New Student Orientation during the summer, representing PIKE and the entire IFC fraternity system. His efforts to engage incoming freshmen with information about Greek life were crucial, helping him establish connections and generate interest in joining the fraternity. His work during New Student Convocation was equally impressive, where Coulson handed out business cards and QR codes, successfully gathering over 25 new names in a single day.

Understanding that recruitment is a collective responsibility, Coulson also addressed the entire chapter, emphasizing the importance of making recruitment a chapter-wide initiative. He provided tips and strategies to brothers on how to effectively engage with PNMs, helping generate new leads and build relationships.

Looking to the future, Coulson aims to recruit 5 strong candidates during the 365 recruitment process, while also developing a comprehensive recruitment chair strategic handbook. This handbook will document his methods, highlighting what worked and what didn't, to ensure a smooth transition for future recruitment chairs. His final goal is to recruit 10 men in the spring 2025 rush, surpassing the average recruitment numbers and further solidifying PIKE's presence on campus.

Through his efforts, Coulson has not only achieved his recruitment goals but also laid the groundwork for future success, ensuring that Pi Kappa Alpha will continue to attract outstanding new members who reflect the fraternity's values.

Recruitment Checklist

1. Print and read the Recruitment Handbook Yes/ No
 - a. [Recruitment Handbook](#)
2. Create written Recruitment Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. [Recruitment Program](#)

3. Is your recruitment officer appointed? Yes/ No
 - a. Bylaw describing the appointment process, who appoints him and when is he appointed
4. Does the provisional chapter utilize ChapterBuilder? Yes/ No
 - a. Every member should submit at least one name to ChapterBuilder
 - b. [Chapter Builder](#)
5. Form a recruitment committee and determine positions Yes/ No
 - a. [Recruitment Committee](#)
6. Obtain IFC Recruitment Rules Yes/ No
 - a. [IFC Recruitment Rules](#)
7. Hold a recruitment committee retreat each semester Yes/ No
 - a. The Recruitment committee doesn't hold a recruitment committee retreat because their weekly meetings allow us to consistently set goals, identify opportunities, and delegate tasks, ensuring that we stay aligned and proactive throughout each semester.
8. Set goals for the semester Yes/ No
 - a. [Semester Goals](#)
9. Create a recruitment calendar for the semester Yes/ No
 - a. Recruitment events are outlined in the calendar
 - b. [Calendar](#)
10. Conduct a SWOT Analysis (Strengths, Weaknesses, Opportunities, Threats) Yes/ No
 - a. [Recruitment Committee Analysis](#)
11. Facilitate GROW Model Exercise (Goals, Realities, Options, Way Forward) Yes/ No
 - a. [Recruitment Committee Analysis](#)
12. Create a Target Market of the men we are looking to recruit Yes/ No
 - a. [Ideal Men To Recruit](#)
13. Recruit at least 5 new members by the end of the first semester Yes/ No
 - a. Coulson Dunning and the recruitment committee have extended and signed 8 bids their first semester.
 - b. [IFC Bid List](#)
14. Meet with Recruitment Advisor on a regular basis. Yes/ No
 - a. The recruitment committee has met with alumni advisors monthly to discuss progress and to ask questions.
15. Each member has a copy of the Recruitment Handbook Section 3: Recruitment for All Members Yes/ No
 - a. Coulson Dunning has not provided recruitment handbooks for every member. However he has done chapter-wide recruitment workshops with hands-on activities to keep chapter members engaged and learning the best recruitment strategies.
16. Hold at least one recruitment event per month Yes/ No
 - a. [Recruitment Event Descriptions](#)
17. Create event checklists for each recruitment event Yes/ No
 - a. [Recruitment Event Checklists](#)

18. Conduct interviews for recruitment and bid extensions Yes/ No
 - a. [Interview Questions](#)
19. Recruit at least 30 new members Yes/ No
 - a. [IFC Spring Bid List](#)
 - b. [IFC Fall Bid List](#)
20. Presentations to sororities/athletic coaches/faculty/new member classes for name generation? Yes/ No
 - a. The Recruitment Team generates names throughout the semester from new member classes and recommendations.
21. Is there a year-round recruitment approach? Yes/ No
 - a. [Year Round Recruitment Approach](#)
22. Recruitment mentality incorporated into all chapter activities? Yes/ No
 - a. [Incorporating Recruitment Into Everything](#)
23. Implement a chapter recruitment scholarship? Yes/ No
 - a. [Recruitment Scholarship](#)
24. Are recruitment materials used (flyers, info sheets, bid cards, recommendation sheets, etc.) Yes/ No
 - a. [Recruitment Materials](#)

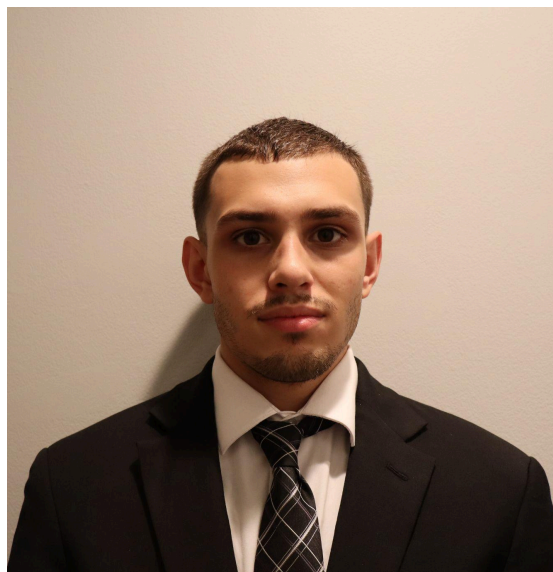

Treasurer

Collin Lozano

colzano@charlotte.edu

Testimony

As a Sophomore, Collin initially entered the Financial committee as the sole Assistant Treasurer, helping former Treasurer Mason Morais to do many tasks throughout the semester. Collin was tasked with keeping track of the accounts payable and receivable throughout the semester, while reporting to Mason in committee meetings. He also participated in the formation of the Spring 24' budget as well as the Fall 24' budget, which he now manages as the Treasurer.

As the Treasurer, Collin has consistently worked throughout his term to strengthen the chapter's finances. Building upon the foundation laid by former Treasurer Mason Morais and former Treasurer Jacob Illingsworth, Collin has been crucial in the financial growth of the chapter. Throughout his term, Collin has focused on the creation and maintenance of the current semesters budget, the collection of accounts receivables, and the formation of his new cabinet.

With the help of former Treasurer Mason Morais and Alumni Financial Advisor Joe Godwin, Collin has been able to form a calculated budget for the Fall 24' semester, while working throughout the semester to adjust the budget as needed. With an 85% collection of receivables in Fall 2024, Collin works diligently to make sure all accounts receivable are collected. With the establishment of his cabinet, and the implementation of bi-weekly cabinet meetings, the Finance Committee is in constant communication with Collin. Assistant Treasurers, both payable and receivable, are currently shadowing Collin with hopes of converting into the assistant positions prior to semester's end.

Looking ahead, Collin plans to begin forecasting the Spring 25' semester budget, while continuing to adjust the current budget throughout the semester. Collin also plans to mark calendar dates for any upcoming administrative or tax-related forms or fees that may need to be filled out or paid. Heading into the next semester, Collin will be potentially preparing to be reappointed to his current position. If he is not reappointed or is approaching his final semester, Collin will begin considering who his predecessor will be and promptly preparing them for their transition into the Treasurer position.

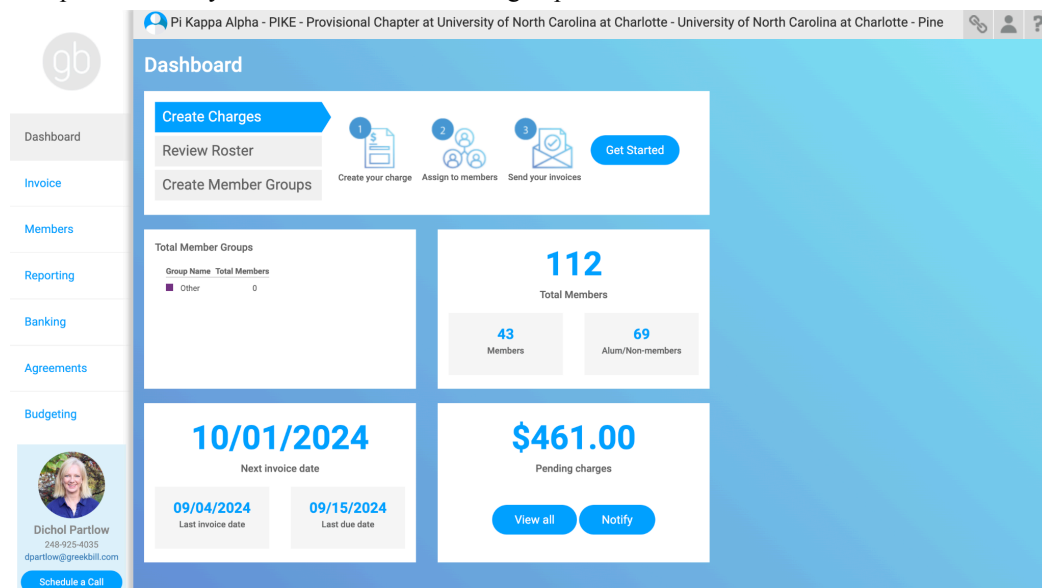

Through his leadership, Collin is creating a sustainable framework for future financial management with his financial program, which is the groundwork for a thriving financial committee. His efforts will not only strengthen current chapter finances, but also ensure that Charlotte's Pi Kappa Alpha's will continue to grow financially, opening up new opportunities for the brotherhood for years to come.

Finances Checklist

1. Print and read Treasurer Handbook

Yes/ No

- a. Collin has printed and read the Treasurer Handbook
 - b. [Treasurer Handbook](#)
2. Create written Finance Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Collin has completed a full written Financial program.
 - b. [Treasurer Program](#)
3. Utilize the *Standardized Budget* (or equivalent) Yes/ No
 - a. Collin utilizes the standardized budget given in MyPIKE Applicable to the Provisional Chapter.
 - b. [Standardized Budget](#)
4. Prepare a balanced budget for the academic term/year Yes/ No
 - a. Collin, similarly to his predecessors, created a balanced budget for the academic term/year. All Chapter budgets can be found in the budgets folder.
 - b.  Budgets
5. Officer Purchasing Card from Crowded ordered Yes/ No
 - a. Collin, upon transitioning into the position, purchased a new administrative card from Crowded. He has also purchased expense cards for the current President, External Vice President, and Internal Vice President.
6. Create and utilize membership contracts Yes/ No
 - a. The Chapter utilizes a New Member Contract/Membership Contract. The Template for this contract can be found in the following link. All members have signed the contract.
 - b. [Charlotte Pi Kappa Alpha Membership Contract](#)
7. Set up a financial system with GreekBill and sign up members Yes/ No

- a. This image is the dashboard from Collin's Greekbill account. With the administrative access, he has signed up all current members into greekbill. Once the potential new members complete their education, Collin will be able to sign them up as well.
8. Bill and collect chapter dues Yes/ No
 - a. Chapter dues are billed to all members at the beginning of the semester, and announced through the Chapter Chats as well as chapter meetings. As of Fall 2024, roughly 88% of dues have been collected, with the remaining 12% of dues being paid off over the course of the semester through payment plans.
9. Pay for LPP and Chapter assessment, provisional chapter pins, initiate badges, *Garnet & Gold's*, etc. Yes/ No
 - a. The Chapter has paid the LPP and Chapter Assessment. Additionally, the Chapter has purchased Provisional Chapter Pins, Garnet and Gold's, and all other materials necessary to the Chapter's operation as needed.
10. Meet with Alumni Financial Advisor on a regular basis Yes/ No
 - a. Collin had his first meeting with the new Alumni Financial Advisor Joe Godwin on September 25th. Collin met with his advisor Joe again on the 16th of October to discuss the current budget as well as the chapter's progress with the PTI, and plans to keep in touch through both in-person and virtual meetings.
11. Form a Finance Committee (accounts receivable, payable, budgeting) Yes/ No
 - a. As of right now, Collin does not have a committee. However, for the committee, he plans to be taking potential new members who are business majors and working them in. Collin does plan to follow the traditional system, with the accounts receivable and payable positions working together to further the Fraternity financially.
12. Build PIKE *University* attendance into budget Yes/ No
 - a. The Chapter plans to budget toward sending three members to the Chapter Executive Conference, as well as budget to send five members to the PikeU Leadership Summit, both of which will be in the Spring Semester.
13. Begin preparation for \$3,000 regalia cost & \$330 per initiate fee Yes/ No
 - a. In preparation for our upcoming initiation, the Chapter has been putting away around \$3000 each semester for the regalia fee, per initiate fees, and chartering banquet.
14. Keep, review, and distribute ledgers (year-to-date figures)? Yes/ No
 - a. Currently, the Treasurer will present a bi-weekly report of the current semester budget. During this brief report, the Treasurer will display the current budget allocation for both administrative and operating expenses. The income statement will be reported to the chapter at each bi-weekly presentation.
15. Develop by-laws for financial delinquency Yes/ No
 - a. In congruence with the Sergeant at Arms, Collin has worked to review and revise all of the by-laws related to financial delinquency within the chapter.
16. Separate account budgets (operations, housing, & kitchen) if applicable? Yes/ No
 - a. Within the current semester budget, the Chapter has the expense account broken up into two parts, the administrative and operating expense budgets.

17. Bill initiation fees and badge fees (\$330 per initiate) Yes/ **No**
 - a. As the initiation fee and badge fees are issued once a provisional chapter has been officially recognized to do so, we have not yet been billed these payments.

18. Required government forms filed (IRS 990, etc)? Yes/ **No**
 - a. The Provisional Chapter has not submitted the required government forms to date, but plans to submit the 990-N (E-Postcard) by the deadline of November 15th. The Chapter will additionally submit the required documents moving forward year by year.

19. Collect at least 90% of accounts receivable **Yes**/ No
 - a. With a prior collection rate of 91% as of the 2024 Spring semester, we are working to improve that number to 100% for this fall 24' semester. Currently, we have a collection of roughly 88% of our dues collected, with the remaining 12% being collected over the semester through brother payment plans.

20. Financial education (including new member class) **Yes**/ No
 - a. Currently, the chapter is informed of the price of dues, the due date for which to pay them, and the availability of payment plans if needed. In terms of education for personal finances, we have Alumni coming into the Chapter to discuss money management and budget planning for your future.

Sergeant at Arms

Nassim Sahir

nsahir@charlotte.edu

Testimony

As the Sergeant-at-Arms of the Provisional Chapter of Pi Kappa Alpha at UNC Charlotte, Nassim ensures order is maintained, the rules from the bylaws are enforced, and holds the brotherhood accountable. It is Nassim's responsibility to guarantee that the brotherhood maintains the high standards that come with being a part of Pi Kappa Alpha. Nassim consistently revisits the bylaws on a weekly basis throughout the semester and meets with the bylaws committee at the end of each semester to look over every single bylaw, setting forth any changes that must be made. The judicial board meets on a weekly basis due to judicial board cases, bylaw adjustments to present to the Executive Council, or to conduct performance reviews. The position also entails that Nassim oversees the point system and the application Flare in which both help further structure the accountability around our chapter. During Nassim's time as Sergeant-at-Arms, Chapter attendance has been at its highest, with zero unexcused absences at any mandatory events, along with enforcing brothers to participate in more community service events to help build us into better men putting us on track to break our community service hours record. Being proactive is vital, which is why the expectations are set early in the semester to make certain that Chapter attendance and responsibility will be held accountable ahead of time, causing much less dilemmas to deal with in the future.

At the beginning of the semester Nassim explained thoroughly the importance of why the Chapter needs "all hands on deck". Everyone must be putting in the work for the future of the fraternity at *all times*! In doing so, elaborating on the point system, the punishments and rewards that come with it. These two aspects of the point system are explained clearly, motivating brothers to want to do more and avoid punishments. It is also brought to the brother's attention by Nassim that every individual who is part of the Chapter should want to do more because they care not because they fear punishment. Flare helps keep track of events and attendance. Fraternity attendance bylaws are explained at the first Chapter, ensuring everyone is on the same page with the consequences that follow not obeying those rules. At the beginning of each month, Nassim adds events to the Flare calendar to give brothers enough time to plan ahead. One crucial aspect to the brotherhood is accountability, and the judicial board has an excellent system put in place. The Judicial Board holds performance reviews for everyone that holds a position and is part of the Executive Council. This review essentially tests the knowledge of the recipient on their position and allows them to understand how they are performing and if any adjustments need to be made. Brothers with low community service hours are automatically assigned hours. This maintains the Chapters ability to achieve Chapter goals.

One attribute that the Sergeant-at-Arms should obtain for future reference is promoting mental and physical health. The Sergeant-at-Arms is incharge of maintaining the shape of the brotherhood. Implementing this aspect into the position will further strengthen it and improve the fraternity overall. The Sergeant-at-Arms could also be there to help enforce diversity, equity and inclusion into the brotherhood. Having a group of men from all kinds of different backgrounds and mindsets can aid in reaching Pi Kappa Alpha's maximum potential nationwide, not just for this specific chapter.

Sergeant at Arms Checklist

Ritual

1. Is the Provisional Chapter pinning ceremony being properly used to pin new members Yes/ No
 - a. [Book of Public Ceremonies](#)
2. Learn the *Preamble* and *Ode to a Pledge* Yes/ No
 - a. Members learn the *Preamble* and *Ode to a Pledge* during new member education.
3. Meetings opened with the *Preamble* and closed with *Ode to a Pledge* Yes/ No
 - a. The Chapter President leads all members of the chapter in opening all meetings and closing all meetings with the Ode to a Pledge.
4. Continue to utilize proper ceremonies (*Preamble* open, *Ode* close and Pinning Ceremony) Yes/ No
 - a. The Chapter opens all meetings with the Preamble, closes all meetings with the Ode to a Pledge, and performs the Pinning Ceremony utilizing the Book of Public Ceremonies when appropriate.
5. Learn Official PIKE songs (Down in Ole Virginny, Dream Girl, etc.) Yes/ No
 - a. The Chapter has learned Official PIKE songs and continues to study them as it moves forward. Specifically, the Chapter has performed for its Dreamgirls more than once in Chapter history, the Dreamgirl of Pi Kappa Alpha.

Accountability (Sergeant at Arms)

1. Print and read Sergeant at Arms Handbook Yes/ No
 - a. Nassim has printed and read the Sergeant at Arms Handbook
 - b. [Sergeant At Arms Handbook](#)
2. Create written Sergeant at Arms Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Nassim has created a complete Sergeant at Arms Program, including his purpose, goals, strategy for the position, structure of the position and cabinet, and how to transition.
 - b. [Sergeant at Arms Program](#)
3. Obtain all IFC and University Policies Yes/ No
 - a. [UNCC IFC Bylaws](#)
 - b. [UNCC Policy Page](#)
4. Begin working to revise the chapter by-laws Yes/ No
 - a. Nassim worked on revising the Chapter bylaws as was necessary to further Chapter success and continues to do so through the creation of a Bylaws Committee. The Chapter has also, on multiple occasions, approved proposed bylaw changes in accordance with the Chapter's rules.
 - b. [Sergeant at Arms Program](#)
 - Establish financial standards Yes/ No
 - i. The Chapter established financial standards which can be found in (Article 2 section 2 of the bylaws)
 - Establish academic standards Yes/ No

- ii. The Chapter established academic standards which can be found in (Article 2 section 2 of the bylaws)
 - Establish conduct standards Yes/ No
 - iii. The Chapter established conduct standards which can be found in (Article 2 section 2 of the bylaws)
- 5. Ensure meetings are in order via Robert's Rules of Order Yes/ No
 - a. Educate the chapter on Roberts Rules of Order and proper meeting procedures Yes/ No
 - i. We do not use Robert's Rules of Order, however, our President and Sergeant at Arms personally seek to maintain order during meetings. Going forward we will be having a Roberto Rules of Order workshop to implement this into the chapter's meeting procedure by the end of this fall
- 6. Establish a judicial board appointed with a cross-section of the members Yes/ No
 - a. Nassim created a Judicial Board that meets on a regular basis to discuss Chapter Conduct, Review Member practices
- 7. Establish a written judicial policy and judicial board procedures Yes/ No
 - a. [Judicial policy and procedures](#)
- 8. Allow chapter members into meetings and regulate when guests come into meetings Yes/ No
 - a. Nassim allows Chapter members into meetings and regulates when guests come into meetings, ensuring the smooth running of Chapter meetings, as well as proper start and end times to meetings.
- 9. Utilize the judicial board to:
 - a. Enforce financial standards Yes/ No
 - i. financial standing requires less than a \$0 balance. The judicial board holds hearings related to the members violating this standard and applies sanctions including but not limited to social probation, fines, and community service hours.
 - b. Enforce academic standards Yes/ No
 - i. Academic standing requires a GPA above 2.7 The judicial board holds hearings related to the members violating this standard and applies sanctions including but not limited to social probation, study sessions, grade check-ins, and community service hours.
 - c. Enforce conduct standards Yes/ No
 - i. Conduct standing requires no sanctions held by the judicial board. The judicial board holds hearings related to the members violating this standard and applies sanctions including but not limited to social probation, fines, and community service hours.
- 10. Bylaws regularly revisited/updated as needed? Yes/ No
 - a. The Chapter created a Bylaws Committee, overseen and appointed by Nassim. The committee meets at the end of each semester to review every bylaw that is implemented. The Sergeant at Arms is responsible for consistently reading over the bylaws throughout the semester, and making recommendations for changes to the Bylaws Committee at the end of each semester or throughout the semester depending on the urgency of the change.
- 11. Review Pi Kappa Alpha *Constitution and Chapter Codes* Yes/ No
 - a. [Constitution and Chapter Codes 2022](#)

Health & Safety

Ryan Zimmerman

rzimme11@charlotte.edu

Testimony

Ryan Zimmerman has only held the position of Health and Safety officer for a short period of time. He was transitioned into the position by Isaiah Grayson who held the position prior. Isaiah had reviewed all of the information out of the health and safety handbook. As well as answering any questions that Ryan had and helped guide him in making the right decisions, to ensure that there was no unnecessary risk taken. With Isaiah's guidance, Ryan successfully ran a social event, with no risk taken and no unsafe situation occurring. Isaiah also reviewed the crisis management plan in case something went wrong.

In the short period that Ryan has held the position of Health and Safety, there has only been one party. He was able to manage the party by having sober monitors, as well as having designated drivers to drive our guests to the party. The event went smoothly, and everything was a success. Here at the University of North Carolina at Charlotte, each fraternity has to hit a certain number of events called 'Gold Standard'. These standards are requirements that each fraternity needs to meet to stay in good standing with the University. The health and safety officer is required to make sure that we get gold standard, by scheduling events and going to school-hosted events to make sure Pi Kappa Alpha obtains gold standard. In the time Ryan has had the position he has gotten brothers to attend an anti-hazing presentation hosted by UNCC. This event fulfills one of the gold standard requirements.

In the future, Ryan is planning on revising the health and safety handbook to ensure that it is up to date, and to add information that is needed to ensure the safety of new members, brothers, and guests of the fraternity. He will ensure that the provisional chapter of PIKE at UNCC obtains the gold standard. He will also operate social events, parties, and brotherhood events to make sure that all standards in the health and safety handbook are all kept. As the health and safety officer Ryan Zimmerman will ensure the safety of all the brothers and guests of Pi Kappa Alpha at any event.

Health & Safety Checklist

1. Printed and read the Health & Safety Handbook Yes/ No
 - a. Yes, Ryan has printed, read, and updated the Health and Safety Handbook. It is in the Health and Safety binder
 - b. [Health and Safety Handbook](#)
2. Create written Health & Safety Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Yes, Ryan inherited and updated the Health and Safety Program, complete with the purpose of the position, goals, how to execute the position, structure of the position and committee, and how to transition the next Health and Safety Officer, from previous Chapter Health and Safety Officers.

- b. [Health and Safety Program](#)
3. Sign the *Standards and Statement of Position on Hazing* each semester and distribute to each member Yes/ No
 - a. Yes, each semester the Health and Safety Officer announces that standards have opened, and the Provisional Chapter Members complete and sign the Chapter Standards Agreement.
4. Review IFC policies pertaining to risk awareness and social events Yes/ No
 - a. Yes, the Health and Safety Officer works with the IFC Health and Safety Officer, as well as ensures that the Provisional Chapter is in compliance with IFC rules.
 - b. [UNCC IFC Bylaws](#)
5. Develop a written crisis management plan Yes/ No
 - a. Yes, there is a written crisis management plan, the plan has been written from the previous Health and Safety Officer. It is updated as needed.
 - b. [Crisis Management Plan](#)
6. Form a Health & Safety Committee Yes/ No
 - a. It is the policy of the Provisional Chapter that the health & safety officer appoints and organizes a health & safety committee. The health & safety committee is responsible for all management, maintenance, and education surrounding the chapter's health & safety initiatives and procedures. The health & safety committee consists of the following:
 - Health & safety officer
 - Chapter president
 - mental health chair
 - Social chairman
 - Member-at-large
 - Health & safety alumni advisor
 - b. [Health and Safety Program](#)
7. Meet with Health & Safety Advisor on a regular basis Yes/ No
 - a. No, because the Health and Safety Advisor has changed multiple times, but the current Health and Safety will meet with the new advisor in the Fall semester of 2024
8. Ensure social events have sober event monitors Yes/ No
 - a. At every social event the number of sober monitors will be decided on the amount of guests and the size of the venue where the social event occurs.
 - b. [PIKE Sober Monitor Handbook](#)
 - c. [PIKE Driver Handbook](#)
 - d. [PIKE Doorman Handbook](#)
 - e. [PIKE Bar Handbook](#)
9. Ensure social events have closed guest lists Yes/ No
 - a. To ensure that our guest list remains closed, the Chapter incorporated a google form that the guests will fill out and put the names of the other guests that will come with them. We also have a wristband system with the guest's name on them.
 - b. [Guest List Handbook](#)
 - c. [PIKE Wristband Handbook](#)
10. Chapter phone tree/texting system for emergency contact Yes/ No
 - a. Yes, all of the active members on the roster have their emergency contact information, their name, and number. All of this information is printed and put into the Health and Safety Binder.

11. Safe transportation accessible at chapter events Yes/ No
 - a. All members will have safe transportation to chapter events.
 - b. [PIKE Driver Handbook](#)

12. Educational discussions on Health & Safety topics (hazing, sexual assault, alcohol and drugs) Yes/ No
 - a. Yes, included in the Chapter's new member education. As well as going to school hosted events for anti hazing, Sexual Assault, Alcohol, and drugs. There are fourteen requirements that each IFC fraternity at the University of North Carolina at Charlotte need to fulfill. The time period to fulfill these requirements begin at the end of the spring break and end at the very beginning of spring break. These fourteen requirements are to help each fraternity to stay in good standing with the University. If these requirements are not fulfilled then there is potential for the fraternity to be removed from campus and the university.

13. Create event checklists for all chapter activities Yes/ No
 - a. Yes, there is a checklist for all chapter activities. All of the appropriate officers will sign off on the event.

Secretary

Jacob Chancy

jchancy@charlotte.edu

Testimony

Jacob joined the provisional chapter of Pi Kappa Alpha at the University of North Carolina at Charlotte in the spring of 24'. Jacobs new member class consisted of five others, and while transitioning into the fall semester, Jacob was given the opportunity to be a member on the chapters executive board as the role of secretary. His mentor and new member educator ultimately left the position handing it down to him.

Jacobs predecessor had originally been taking chapter and executive meeting minutes as well as creating the agendas. All the meeting minutes, meeting agendas, and all other documents were made in a google drive for the chapter. Jacobs predecessor also created a calendar for the future academic years to come using google calendar. The calendar is built on as the following academic years follow. Jacobs' predecessor has also been in charge of the chapter's roster, reporting new members, transitioning executive officers in and out of their positions, and reporting all dropping and graduating members of the chapter.

In the position of secretary, Jacob has made the documents for chapter and executive council meetings. These include the minutes for both of those meetings, as well as the agendas. The agenda for chapter meetings is formatted in google slides where members input their updates to later be presented to the chapter as a slideshow. Jacob is currently working to organize all past and present chapter documents to the right folders as they are quite unorganized. Jacob also updates the google calendar with any events the chapter has, and events brothers of the chapter should attend, whether it is for sorority relations, gold standard or community service. Jacob has been keeping track of the roster on myPIKE, he has kept the roster up to date making sure that within five days of a member joining, dropping, graduating or, transitioning in or out of a position has been updated on the roster.

Jacob is hoping for a few more changes to better the future of the Provisional Chapter at the University of North Carolina at Charlotte. Jacob is thinking of ways to implement better organization with documentation which in turn he hopes will also better communication within the chapter. Jacob also hopes to help more with planning since he has not had to plan any retreats or related events so far.

Secretary Checklist

1. Print and read Secretary Handbook
 - a. Yes, Jacob printed and read the Secretary Handbook.
 - b. [Secretary Handbook](#)

Yes/ No

2. Create written Secretary Program (complete with Purpose, Goals, Execution/Strategy, Structure, Transition) Yes/ No
 - a. Jacob has created and written a secretary program to ensure a quality guideline for future successors of the role.
 - b. [Secretary program](#)
3. Ensure roster and chapter officer information is updated with MHQ Yes/ No
 - a. The roster and chapter officer information has been updated in myPike. Officer information is updated as members of the chapter are transitioned in and out of roles. Roster information is updated as members join, drop, and graduate.
4. Familiarize with the chapter dashboard, login, and password, updates, etc Yes/ No
 - a. Jacob familiarize himself with the chapter dashboard in myPike, as well as the login information for the Chapter Google Drive. Jacob maintains both through ensuring members are updated and given access as needed.
5. Take minutes at chapter and executive council meetings Yes/ No
 - a. Jacob takes minutes at all Chapter and Executive Council meetings, ensuring that topics discussed are accessible to members who may not have been able to attend.
 - b. [Chapter Minutes](#)
 - c. [Executive Council Meeting Minutes](#)
6. Take roll during chapter meetings Yes/ No
 - a. Jacob does not take roll at Chapter meetings. Instead, the Chapter Sergeant at Arms handles Chapter attendance. The Chapter switched to this method for accountability purposes, and to allow the Sergeant at Arms to enforce excused and unexcused absences as described in the Chapter bylaws.
7. Prepare a calendar for the remainder of the academic term/year Yes/ No
 - a. The Chapter utilizes a shared google calendar, as well as updates events in the application Flare, an app used for Chapter communication. The calendar has been prepared for the remainder of the academic semester, and events are added to the calendar as needed to accommodate changes. The calendar is discussed on a weekly basis at both Executive Board meetings and Chapter meetings.
 - b. [Google Calendar](#)
8. Utilize Google Gmail listserv for chapter communication Yes/ No
 - a. The Chapter utilizes alternative methods for Chapter communication rather than a Google Gmail listserv. Some of those methods include: the application Flare, which allows the Chapter to have multiple chats for different purposes including a general chat, announcements chat, and major-specific study chats. Additionally, the Chapter utilizes a shared google calendar for upcoming events.
9. Attend PIKE *University* events (CEC, LS, Academy/Convention) Yes/ No
 - a. The Chapter has sent members to PIKE University events multiple times. In the last year, the Chapter has sent 60% of members to PIKE University events, including the Chapter Executives Conference in Memphis, the Leadership Academy in Atlanta, and the 2024 International Convention in Oklahoma City.
10. Update chapter information on myPIKE (new members, officers, graduations, etc.)

within 5 days

Yes/ No

- a. Jacob has updated all Chapter information within five days of changes through MyPike. This includes: New Members joining the Chapter, Members graduating, officers transitioning into positions, and all other changes.

11. Provide a contact list for the chapter of all the brothers

Yes/ No

- a. The Chapter has and maintains a contact list for all members of the Chapter. This list is updated as members join the Chapter, leave the Chapter, or otherwise have changes to their contact information.
- b. [Contact List](#)

12. Bi-annual submissions to the Shield & Diamond

Yes/ No

- a. The chapter has not made any submissions to the Shield & Diamond. Moving on the chapter will prepare a submission to the Shield & Diamond for the 2025 spring semester, and will be submitted on April 1st.

13. Prepare agendas prior to chapter and executive council meetings

Yes/ No

- a. Jacob creates all the Chapter and Executive Council agendas, ensuring that topics discussed are accessible to members who may not have been able to attend.
- b. [Chapter Agenda](#)
- c. [Executive Agenda](#)

14. Order additional provisional chapter member pins, *Garnet and Gold's*, recruitment material, etc. as needed

Yes/ No

- a. The Chapter orders Provisional Chapter Member Pins, Garnet and Gold's, and all other necessary materials as needed. Typically, the Chapter Treasurer handles ordering the materials when notified of the need for new materials.

Alumni Advisory Board Checklist

1. Ensure the ideal 6-member Advisory Board has been implemented Yes/ No
 - a. Yes, the board has had issues with participation from some members in the past and is currently in transition. The roles of Chapter Advisor, Finance, and Recruitment have had dedicated individuals in them for most of the last year and we recently seated new alumni into Health and Safety and Operations. We look forward to working closely with these alumni in their new roles. The former Chapter Advisor remains an active member on the board and attends monthly meetings but does not currently wish to hold a specific role. We are seeking to fill our Education position and the Chapter Advisor has recently reached out to the Director of Alumni Engagement in an attempt to fill this vacancy.
2. Provisional Chapter Advisor has completed the online accreditation process Yes/ No
 - a. The accreditation process was completed on June 5th, 2024.
3. Introduction to the Regional President Yes/ No
 - a. Yes, the Chapter Advisor has been in contact with Pine Regional President David Newsome.
4. Have regular (bi-weekly) communication with the respective undergraduate chair position Yes/ No
 - a. Yes, each advisor on the AAB is in regular contact with their respective chair positions. We have recently filled our Operations and Health and Safety positions and those advisors are getting up to speed. We expect a regular communication stream between those advisors and the respective chair positions to begin shortly.
5. Hold monthly AAB meetings Yes/ No
 - a. Yes, the Alumni Advisory Board typically meets via videoconference on a monthly basis to brief each other on each position and current status of the chapter.
6. Create a calendar of events and have advisors sign up for chapter meetings they can attend Yes/ No
 - a. Yes, the advisory board sends out the calendar of events with the meeting agenda and minutes.
7. Host chapter transition retreats and goal setting retreats Yes/ No
 - a. Yes, while transition retreats have not taken place yet the Chapter Advisor has participated in goal setting retreats.
8. Have at least one advisor at each chapter meeting and exec meeting Yes/ No
 - a. Yes, members of the AAB attend in person meetings to the greatest extent possible. The Board has also attended these meetings virtually when able.

Letters of Recommendation

Sharon L. Gaber, Chancellor of the University of North Carolina at Charlotte

February 1, 2024 Pi Kappa Alpha International Fraternity
Memorial Headquarters
8347 West Range Cove Memphis, TN 38125

Dear Sirs,

As Chancellor of the University of North Carolina at Charlotte, I am writing to express my support for our Pi Kappa Alpha chapter to be chartered and officially recognized by the Pi Kappa Alpha International Fraternity.

I have had the privilege of getting to know Isaiah Grayson and Matthew Corley, and have been impressed by the leadership they have demonstrated. They both exhibit a sincere commitment to the University and to the student body.

The members of our Pi Kappa Alpha chapter are determined to be a positive force on our campus and the surrounding community. Your support and validation of their efforts would be greatly appreciated.

Sincerely,
Sharon L. Gaber
Chancellor

Kevin W. Bailey, Vice Chancellor for Student Affairs at the University of North Carolina at Charlotte

January 29, 2024

Pi Kappa Alpha International Fraternity
8347 West Range Cove
Memphis, TN 38125

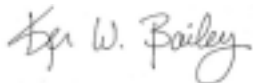

To Whom It May Concern:

I am pleased to write this letter of support for the provisional chapter of Pi Kappa Alpha International Fraternity at UNC Charlotte to receive its charter. From my perspective, every great chapter starts with great leadership. I personally know immediate past president Isaiah Grayson. He had to make a few tough decisions that included ousting his predecessor and removing members from the chapter for behaviors not aligned with the values of the chapter. He was able to garner the support of his brothers to do what was needed to propel the chapter forward. Isaiah had great relationships with the staff in the Office of Fraternity and Sorority Life and was not afraid to reach out when he has a question or needs guidance.

I have witnessed members of the chapter become active in other student organizations on campus including the Student Government Association, Niner Times (student newspaper) and Sports Clubs. The chapter is engaged in philanthropy including the Isabella Santos Foundation, which supports families battling pediatric cancer. Their efforts raised around \$5,500 in partnership with local alumni.

Based on my observations, I have no concerns about the chapter receiving their charter and look forward to the opportunity to welcome the men as permanent members of the fraternity community at UNC Charlotte.

Sincerely,

Kevin W. Bailey, Ph.D.

**Michelle Guobadia, Director of Fraternity and Sorority Life at the University
of North Carolina at Charlotte**

October 18, 2024
Pi Kappa Alpha International Fraternity
8347 West Range Cove
Memphis, TN 38125

To Whom It May Concern:

I am pleased to be writing this letter of support for the Pi Kappa Alpha provisional chapter at UNC Charlotte. Since the provisional founding in 2022, the men have been persistent in striving to succeed not only in the interfraternity council, but also as leaders in the community, recruitment, service, and brotherhood. The provisional chapter has remained true to its values and is working to challenge each man to have “*courage to be more.*”

Since working with the group, I have met and enjoyed every interaction that I have had with the men of PIKE. They are eager to do well and come in with questions, seeking advice, and just to say hello. One of the largest areas of success for the group includes recruitment as the group has grown steadily since their local founding. My hope is that they stay steadfast to what Pi Kappa Alpha values are and they don’t fall to the trappings of trying to be like other groups. Their unique style works and men gravitate to it. Truth, love, and friendship never fails when it comes to building a strong foundation and if the men continue to focus on that, they will prosper!

Their image on campus is a positive one. The brothers work to ensure they follow the rules and still enjoy their time as students. It is awesome to see the men take on leadership in Student Government, Niner Times Newspaper and other organizations across campus. Seeing PIKE signs, t-shirts and letters across campus has helped in making them a visible organization to the community. The most standout move the provisional chapter did was rise to my own challenge of participating in our annual AIRBAND competition when no other IFC chapter would step up to the plate. The men not only took up the challenge, they exceeded it earning the gratitude of my office, the respect of their peers and the admiration of our Greek community. That is the type of group leadership that cannot be taught and will not be forgotten anytime soon.

It is exciting that the men are at the point to petition for chapter status with the IHQ of Pi Kappa Alpha Fraternity. I am pleased to give my highest support for this petition and we look

forward to many years partnership and collaboration with this chapter and the men of PIKE. Should you have any questions or comments, please feel free to contact me at mguobadi@charlotte.edu or 704-687-0359.

Interfraternally,

A handwritten signature in dark ink, appearing to read "Michelle Guobadia". The signature is fluid and cursive, with the first name "Michelle" written in a larger, more prominent script than the last name "Guobadia".

Michelle Guobadia, M.Ed
Director for Fraternity & Sorority Life

**Kirby Fitzpatrick, former Associate Director of the Office of Fraternity and
Sorority Life and Interfraternity Council Advisor at the University of North
Carolina at Charlotte**

January 29, 2024

To whom it may concern:

This letter is to serve as a recommendation from the Office of Fraternity and Sorority Life at the University of North Carolina at Charlotte for the Provisional Chapter of Pi Kappa Alpha Fraternity to receive their charter. Since the chapter's reestablishment on campus in fall 2022, the chapter has seen over 60 members join their brotherhood. The chapter has maintained above our expected 2.60 GPA each semester they have been on campus. Additionally, in their first year participating in our accreditation program, Gold Standard, the chapter appears to be on track for meeting their educational requirements for this year.

The chapter participates in all IFC activities. The provisional chapter has also worked hard to be creative with chapter events and programming. Their inaugural "Pikes of the Caribbean" philanthropy week was innovative and brought a new energy to campus.

The chapter has also worked through challenges - establishing themselves on campus has come with roadblocks and hiccups. Under the leadership of Isaiah Grayson, the chapter established structure and a great working relationship with our office. It is a pleasure to consistently help the chapter brainstorm ideas and help the chapter grow.

The chapter also sees great campus involvement. Many of the members are part of the Student Government Association, Niner Times (school newspaper), Poker Club, Rugby Team, and more. Their campus involvement is significant in comparison to our other fraternities.

We look forward to the chapter maintaining its good standing and setting an example for other organizations to follow. If our office can ever be of assistance to Pi Kappa Alpha, do not hesitate to let us know.

Best,

Kirby Fitzpatrick, M. Ed.

Assistant Director for Fraternity and Sorority Life

James Citrin, President of the Interfraternity Council and Student Body Vice President

October 13th, 2024
Pi Kappa Alpha International Fraternity
8347 West Range Cove
Memphis, TN 38125

To Whom It May Concern:

As the Interfraternity Council (IFC) President and Student Body Vice President of UNC Charlotte, I have been honored to observe the growth and dedication of Pi Kappa Alpha (PIKE) as they strive for official recognition through chartering. In this capacity, I have witnessed firsthand their commitment to fostering a strong and active presence within the Greek community. Their consistent participation in council-wide events is noteworthy. They attend council specific events and actively engage with the larger Greek body. I have heard positive stories from both PHA and NPHC. The brothers of PIKE always seek ways to improve their reputation.

What sets the PIKE executive board apart is their proactive attitude toward feedback and growth. They consistently demonstrate a willingness to innovate and refine their operations. Rejecting complacency in favor of continuous improvement. My observations are a testament to the enduring and concurrent philosophy of both the former President (Isaiah Grayson) and current President (Cameron Harper). Rather than focusing solely on their own success, they empower the lives of those that follow them. This example of camaraderie speaks to their character and dedication to the broader Greek life mission. PIKE has elicited the best out of their members and these men go onto represent your letters in exceptional fashion.

PIKE has also built a reputation for hosting safe, well-managed social environments. Many women personally cite the fraternity as one of the best. The brothers ensure that their gatherings contribute positively to campus life and culture. Furthermore, they're highly visible on campus, particularly through their philanthropy efforts, frequently tabling and engaging with students. This level of involvement and responsibility is a testament to the values they hold as an organization. I am confident that they deserve to receive their charter. In my opinion, the national fraternity is fortunate to count these men among their ranks and it would be criminal to withhold recognition.

Sincerely,
James Citrin
