EDUCATION

University of North Carolina Charlotte | B.S. Computer Science, Concentration in Software Engineering

EXPERIENCE, PROJECTS, & RELATIVE COURSEWORK

Mobile App Engineer | GymGPT

August 2025 - Current

AI Personal Training Application

React-Native | SQL | VertexAI | Google Cloud Functions | Firebase | Expo

- Fine-tuned a Gemini 2.5 Flash model on 3,000+ fitness data points to deliver personalized coaching, resulting in highly customized workout advice.
- Built a voice-driven pipeline using Whisper and Google TTS in a React Native app to enable real-time audio feedback, delivering a personal training like experience.
- Leveraged Google Cloud Functions to handle backend AI logic, resulting in a seamless and scalable app infrastructure.
- Developed the app's core functionality in React Native to create a multi-platform mobile app, deploying a singular codebase for consistent user experience.

Undergraduate Research Assistant | UNC Charlotte

September 2023 - August 2024

Education Tool | EDUKona

Python | django | DRF | AWS | React | Jira | Git | PostgreSQL

- Improved student learning outcomes by initiating the development of an educational web and mobile platform, resulting in a solution tailored to academic needs.
- Enhanced efficiency and real-time interactivity by building a responsive React frontend and Django APIs with WebSocket support and PostgreSQL integration, resulting in a smooth and responsive user experience.
- Contributed to real-world educational improvements by co-authoring and publishing a research paper in the IEEE Frontiers in Education conference and presenting functional prototypes to stakeholders, influencing future curriculum tools and academic initiatives.

Software Developer | Personal Portfolio

June 2025 - August 2025

Animated 3D Web App

React | ThreeJS | AWS | Three-Fiber

- Designed and deployed a personal portfolio featuring interactive 3D models using Three.js, highlighting technical projects and creative work.
- Animated 3D assets to create a visually engaging UI, showcasing both software engineering and design proficiency.

UNC Charlotte | Coursework

- Mobile App Development, Software Project Management, Software Architecture, Penetration Testing [Spring 2025]
- Software Engineering, Operating Systems and Networks, Human Centered Design [Fall 2024]
- Data Structures & Algorithms, Database Design and Implementation, Web development [2023]

Founding Father of Pi Kappa Alpha, KAPPA KAPPA Chapter

- Founded the Pi Kappa Alpha chapter at UNC Charlotte and held multiple leadership roles including Vice President and Sergeant at Arms; led chapter governance, operations, and disciplinary proceedings.
- Directed strategic planning and managed executive and cabinet teams; upheld bylaws, coordinated chapter initiatives, and attended national conferences to strengthen leadership and communication skills.

Part Time Experience

2020 - 2025

- DICKS Sporting Goods, Red Rocks Cafe, The Lighthouse Restaurant, Autobell Car Wash, UNC Charlotte

TECHNICAL SKILLS

Front End | React, React-Native, MUI, Javascript, ThreeJS, CSS, HTML

Back End | Python, SQL, Java, Django, DRF, PostgreSQL, Firebase

Testing/Deployment | AWS, Google CCloud, JUnit, Postman, Figma, Swagger

Developer Tools | Git, GitHub, Jira
